Friend,

In your setting I may be required to share only values, life skills, and character principles outside the scope of my faith, but ... I've had the opportunity to help YOU become a better and stronger YOU! Nonetheless, my life has been called to share the One, real lasting Truth. Along the way, I am attempting to use the relational gifts I have been given. Our meeting has been no accident, and I hope will impart something of eternal value as our paths intersect briefly.
