Come Join Lee in an afternoon of Hypnotherapy to Meet Your Spirit Guides. You will learn your Spirit Guides' names and their personalities, maybe for the first time. This is communication with your Guides you can use for the rest of your life.

Lee will take you on guided meditation to an Alpha Brain Wave state, from the Beta Brain Wave state of normal activity, where you will see a complete past life in a group setting and at the end of session you will meet your spirit guides! Do you have phobias, unexplained relationships, or want to know more about your soul's path? Could it be that you chose your life's circumstances, relationships, and life's events?

Bring Two Pillows and Throw for Cover.
