EXPERIENCE

INFOSYS, ENERGY PRACTICE – Houston, TX (Remote – Raleigh, NC) Summer 2026

Infosys's Energy practice delivers technology and AI consulting services to global energy clients

InStep Strategy Associate

- Conducted strategic and economic analysis of the ~\$210B Canadian oil & gas market and presented a go-to-market recommendation to AVP-level senior management, sizing a ~\$1B addressable growth opportunity
- Built an AI-enabled Topaz Fabric decision-support model scoring 21 oil & gas operators on four weighted factors, prioritizing ~10 targets and guiding an 18-month growth strategy across a ~\$1B addressable market
- Analyzed competitive positioning and growth potential across 21 oil & gas operators using ~120 decision-maker profiles and 5+ senior stakeholder interviews, translating findings into a prioritized 3/6/18-month growth strategy

U.S. ARMY, XVIII AIRBORNE CORPS – Fort Bragg, NC

2023-2025

U.S. Army's rapid-response corps focused on airborne operations, global crisis response, and large-scale combat operations

Executive Officer

- Rated by supervisor in the top 5% of all first lieutenants served with in over 18 years of service
- Led a business-unit process improvement effort by analyzing and redesigning maintenance operations, reducing inoperable equipment 30% and enabling worldwide deployment readiness within 18 hours
- Coordinated resource allocation and logistical planning across multiple organizations during a major restructuring, enabling 1,000 personnel to sustain critical operations without interruption
- Created new Arms Room operations protocol, achieving a 90% compliance score, highest in organization, and highest overall in over 4 years

U.S. ARMY, 82ND AIRBORNE DIVISION – Fort Bragg, NC

2021-2023

Rapidly deploys in 18 hours; conducts forcible entry parachute assaults and secures key objectives

Communications Officer (2022-2023)

- Led the 1st-place communications team in a 3,000-person organization, integrating 72 communication systems during a large-scale operational exercise
- Advised senior leadership on resource allocation for 300+ communication systems, evaluating operational requirements and competing priorities to increase asset availability 60% across organizational functions
- Designed and executed a Battle Command Platform communications exercise, achieving the top score in the 82nd Airborne Division and earning recognition from the commanding general of an 11,000-soldier organization

Platoon Leader (2021-2022)

- Selected above 7 peers to direct time-sensitive operational response during Russian missile attacks on Ukraine, briefing senior leaders daily to inform force-protection decisions for 2,000+ personnel
- Planned and coordinated 6 multinational exercises with Polish and Joint U.S. forces, qualifying 50 personnel and increasing coalition platform qualification 27%
- Managed deployment planning and logistics for 23 personnel and 9 tactical vehicles, facilitating IT and communications capabilities for 200+ U.S. and Polish military personnel supporting NATO allied defense operations
