EXPERIENCE

ENERGYRE, Houston, Texas

2023 – 2026

energyRe is an energy company in the sustainability industry focused on generation, transmission, and storage construction

Financial Planning Analyst

- Spearheaded the construction of an online 3-statement financial model enabling development teams to track real-time project impact on entity and consolidated level reporting
- Implemented an enterprise performance management (EPM) system to forecast, budget, and analyze 100+ projects; partnered with project leaders to map investment drivers and design scenario planning frameworks, providing developers and leadership with granular visibility to optimize capital deployment and refine long-term strategic planning
- Integrated Workday Adaptive to consolidate development team project spend and investment team financial projections into a corporate model, supporting data driven decision making and financial statement analysis for quarterly board presentations
- Managed quarterly departmental budgeting, expense tracking, and resource allocation modeling across multiple active project lines; analyzed cost variance and time allocation trends while partnering with departmental leads to present clear budget recommendations, and facilitate reallocation of capital and personnel across organizational priorities
- Created and managed forecasts for various renewable energy projects and mentored the development team on the financial impact of construction projects, improving understanding of project economics, financial statement implications, and vendor/procurement decisions

PRICEWATERHOUSECOOPERS, Houston, Texas

2022 – 2023

Experienced Audit Associate

- Managed a four person international audit team in Kolkata, India, overseeing audit execution while training team members on revenue recognition and accounts payable/Expenditure Cycle
- Audited financial statements mainly for Energy, Utilities & Resources companies with \$115B+ combining market capitalization by reviewing 10-Qs/10-Ks and executing substantive testing across revenue, fixed assets, accounts payable, expenses, equity, and cash, in supporting unqualified audit opinions
- Executed financial due diligence for an M&A transaction by analyzing counterparty financial reports, identifying key financial risks/discrepancies, and providing insights to support transaction evaluation and decision-making
- Developed audit procedure automation tools that streamlined evidence-gathering workflows and reduced processing time by 30-50%, enabling faster turnaround across recurring audit procedures

ADDITIONAL

- Financial Ministry Assistant for the Holy Trinity Anglican Church
- Application Proficiencies: MS Office, Workday, Oracle, Tableau, QuickBooks
- Personal Interests: Basketball/Football, Skiing (Canada), and fishing.
- Co-authored and published research in the American Accounting Association's "Current Issues in Auditing" examining how different data analytics influence auditors' decision-making" | DOI: [10.2308/CIIA-2021-031](https://doi.org/10.2308/CIIA-2021-031)
