

Architectural site plan showing the layout of an existing lanai slab, pool, and house. The plan includes dimensions, structural details like pile caps and rebar dowels, and labels for various components such as the pool walls, deck support shelf, beach walk, spa, and existing house. A new 6ft high reinforced CMU privacy wall is also indicated.

EXISTING LANAI SLAB

EXISTING HOUSE

PROJECT
1100 DANA CT
MARCO ISLAND, FL

Key features and dimensions shown on the plan:

- Pool Area:** Includes pool walls (Detail 1 on 2), deck support shelf, and a beach walk. Dimensions include 15'-4" and 64'-0" for the overall pool area.
- Lanai Slab:** Shows the existing lanai slab with reinforcement details on DWG #DT-01. Dimensions include 10'-0", 12'-6", 28'-0", 15'-4", 8'-4", and 8'-4".
- Structural Details:** Includes pile caps (wide pile cap), rebar dowels (min 6" embedment) into existing slab and foundation, and a new 6ft high reinforced CMU privacy wall (5/18/12).
- Other Labels:** GRADE BEAM, BEACH WALK, SPA, and EXISTING HOUSE.
