

Diplomat Lane Outfall Stabilization

MSD Project Numbers: 11447

PROJECT DESCRIPTION

Reconstruct outfall pipe, stabilize stream bank, and perform preventative channel improvements.

PURPOSE

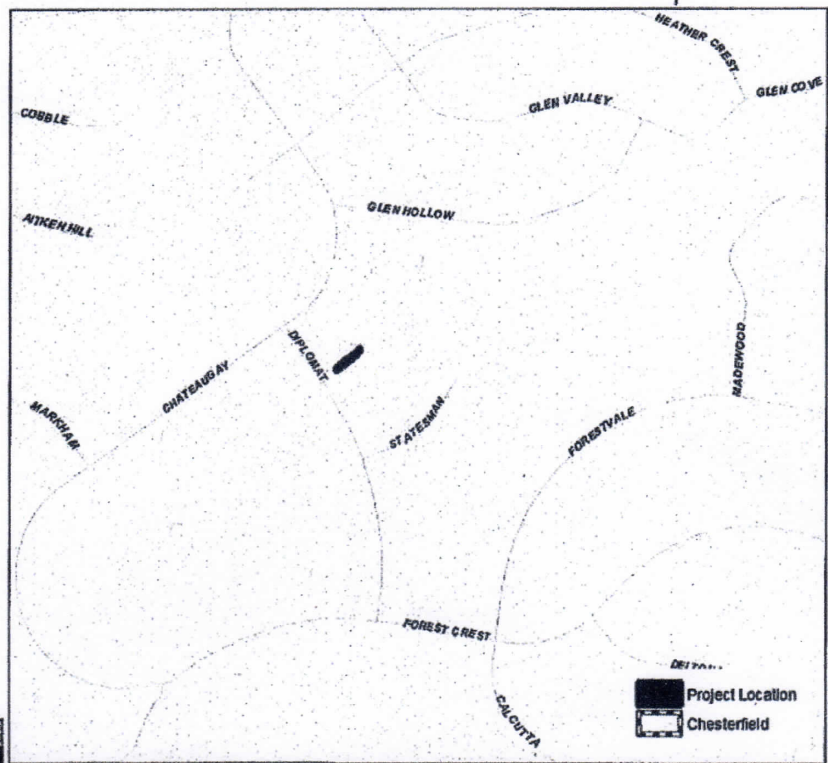

To alleviate bank failures and erosion at outfall. This project is part of the \$67M in finite projects covered by the spend balance left by the passage of Proposition S.

WHAT THE PUBLIC MAY NOTICE

Project construction is within the common ground behind houses. There will be clearing within the project limits.

PROJECT START

Design: Currently
Construction: FY19
