SPRING HOME IMPROVEMENT

Did you know?

Homeowners with an eye on home improvement projects should know that kitchens and bathrooms tend to be the most costly rooms to renovate. An affiliate of the National Kitchen and Bath Association told Architectural Digest in 2023 that kitchens and bathrooms require the most labor-intensive renovations, which contributes significantly to the high costs of such projects. Labor is indeed a significant cost when renovating a home, as the Construction Labor Market Analyzer indicates labor cost percentages in construction are between 20 and 40 percent of the total budget of a given project. The final cost of any renovation project will depend on a host of variables unique to each home, including the square footage of the room being remodeled and the materials homeowners choose. However, homeowners looking for less costly renovations may want to consider revamping their dining rooms and closets, each of which are projects that can make a difference and tend to require a less significant financial commitment than projects like kitchen and bath remodels.

PUBLIC NOTICE

EVERY DAY, NEBRASKA EXAMINER journalists work tirelessly to hold government officials to account and report on how state policies affect Nebraskans – and there could hardly be a time when such journalism is more crucial. Guiding our newsroom is a simple command: Dogged. Principled. Dedicated to Nebraska news. Nebraskans want accountability from their elected officials and government. They want to know whether their tax dollars are being well-spent, whether state agencies and local governments are responsive to the people and whether officials, programs and policies are working for the common good. The Nebraska Examiner is a nonprofit, independent news source committed to providing news, scoops and reports important to our state. 10ctf

National FFA WEEK

FEBRUARY 21-28, 2026

FFA WEEK

“Future Farmers of America” – today known as the National FFA Organization – was founded by a group of young farmers in 1928. Their mission was to prepare future generations for the challenges of feeding a growing population. They taught us that agriculture is more than planting and harvesting – it’s a science, it’s a business and it’s an art.

National FFA WEEK

FEBRUARY 21-28, 2026

Each year, FFA chapters around the country celebrate National FFA Week. The week long tradition began in 1947 when the National FFA Board of Directors designated the week of George Washington's birthday as National FFA Week in recognition of his legacy as an agriculturist and farmer. The first National FFA Week was held in 1948. Today, FFA Week always runs Saturday to Saturday and encompasses Feb. 22, Washington's birthday. National FFA Week is an opportunity for FFA members, alumni and sponsors to advocate for agricultural education and FFA. It's a time to share with local, state and national audiences what FFA is and the impact it has on members every day. We salute everyone involved in FFA!
