7 Facts About Labor Day

1. The first celebrated US Labor Day was on Tuesday, September 5, 1882 in New York City, planned by the Central Labor Union.

2. 10,000 workers marched from City Hall all the way to 42nd Street and then met with their families in Wendel's Elm Park for a picnic, concert, and speeches.

3. Canada is said to have originated the idea of hosting a day honoring the labor movement. In 1872, they held a "Nine-Hour Movement" to show support for striking workers.

4. There is disagreement about who actually

proposed Labor Day as a holiday. Some say it was Peter J. McGuire, who was the cofounder of the American Federation of Labor. Others believe that it was Matthew Maguire, a machinist.

5. Oregon was the first state to celebrate Labor Day as a legal holiday in 1887.

6. The decision to make Labor Day the first Monday of September was approved on June 28, 1894.

7. Labor Day started as a part of the labor union movement, to recognize the contributions of men and women in the US workforce, but modernly is seen as a chance to celebrate the last weekend of summer.

Happy LABOR DAY
