What training, experience, and background make you the best qualified candidate to be your party's nominee for this office?

I am an attorney by trade and understand the importance of the rule of law and how our government should function, for and by the people. I have lived in many places and have befriended folks from all walks of life, with beliefs and ideals spanning the entirety of the political spectrum. We should work together for the greater good.

What are the two (2) most pressing issues you will face if elected? Describe your specific plans/ideas for addressing these issues.

Civility and community – we must stop focusing on political differences and work to build up ourselves and our country. Healthcare and lower drug costs – we are the greatest country in the world and our citizens deserve access to basic healthcare that the states can help to administer; we need innovation, business savvy and businesses that will focus on the United States and its citizens.

In submitting your responses to the LWV questionnaire, you are taking advantage of a unique and valuable opportunity to reach out to your constituents. Through the *Voters Guide*, you communicate directly with voters on a platform equal between all candidates.

Thank you for your service to our community. We look forward to helping you reach your constituents.

Sincerely,

Jacqueline Alfred, Chair, Voters Guide 2020
