

HULL SHIELD™

ULTRASOUND - THE FUTURE OF ANTI-FOULING TECHNOLOGY

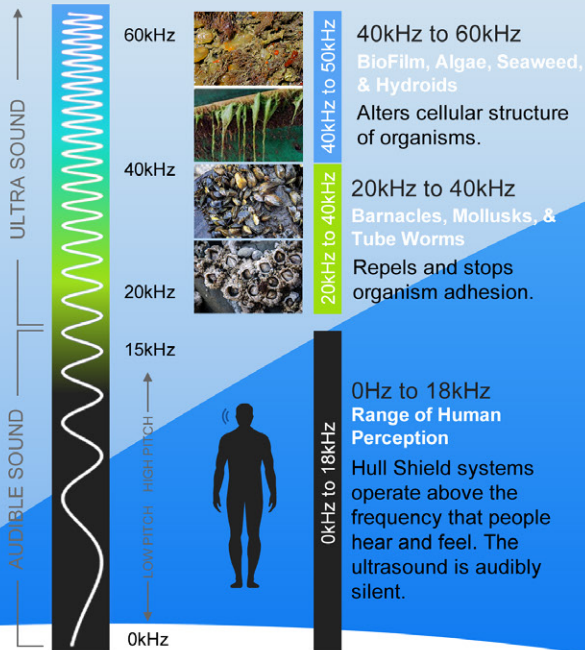

THE FUTURE OF MARINE FOULING PREVENTION

Enjoy 24/7 anti-fouling protection with Hull Shield ultrasonic anti-fouling systems. Ultrasonic anti-fouling works to keep your hull and running gear clean using just the power of ultrasound. Hull Shield is a fully automatic solution that works around-the-clock to keep your boat clean so that you don't have to.

Hull Shield systems operate similar to a stereo and speakers. The controller sends ultrasound signals to transducers attached to the hull or running gear - the transducers receive the high-frequency signals and convert them into ultrasonic pulses. These bursts of ultrasound work to ablate, loosen, and repel fouling that come in contact with the boat or running gear.

"The difference is clear!"

Effectively deters hard fouling & barnacle growth.

Save money with fewer haul-outs & spend less time cleaning.

Significantly slows algae & biofilm accumulation on your hull.

Environmentally friendly & ocean safe.

Improves performance & fuel efficiency.

Increase your boats resale value.

PROTECTION FOR:

- Hulls
- Drives
- Rudders
- Bow Thrusters
- Swim Platforms & More...

Easy Installation Options

SAVE MONEY & INCREASE PERFORMANCE

Maintaining a clean hull dramatically increases performance, speed, and fuel efficiency. While keeping your hull clean has amazing benefits, it will also extend the life of your bottom paint. You will enjoy significantly less maintenance costs, haul-outs, and extended paint life - all while having confidence that your boat will be operating at peak performance and efficiency.

ESTIMATED ANNUAL SAVINGS FOR A 50' CRUISER

	1 YEAR	2 YEARS	3 YEARS	4 YEARS
Without Hull Shield	\$5,900	\$5,900	\$5,900	\$5,900
Hull Shield	\$4,238	\$0	\$0	\$0
SAVINGS	\$1,662	\$5,900	\$5,900	\$5,900

HULL SHIELD PAYS FOR ITSELF IN JUST 8 MONTHS

Calculation based on a 50' boat with an estimated annual maintenance cost of \$5,900 which includes \$2,400 in diver fees & \$3,500 bottom painting costs per year. Hull Shield costs include the cost of two HD100 systems for protection of the hull and drives.

Low power consumption permits the use of wind & solar for battery charging.

Ocean Safe & Environment Friendly

COMBINE to increase coverage

Hull Shield units can be combined for extended range and can be used on vessels of any length.

PROTECTS HULLS, STERN GEAR, OUTDRIVE, & BOW THRUSTER

Product Comparison

	HD1	HD100
MSRP	\$499	\$1699
Hull Area Protected	200sqft (20' LOA)	800sqft (50ft LOA)
Number of Emitters	1	4
Power Consumption	0.25Ah	1Ah
Max Pulse Power	2A	2A
Solar Compatible	YES	YES
Battery Protection	YES	YES
2 Year Warranty	YES	YES

Perfect for any Hull Type

Hull Shield anti-fouling systems work on all hull types including vee's, catamarans, sail & displacement, barge, and more.
