SNYPE

Know more. Explore better.

Turning bird data into knowledge, targets and discovery.

COPYRIGHT NOTICE

Copyright and permissions information

Clear information for app users. Please read this document together with the other Snype legal notices where relevant.

Snype has been developed to help birders explore, plan and better understand bird distribution information in a practical and visual way. The app, including its text, design, maps, rankings, summaries, screenshots, features, birding insights and other original content, is protected by copyright.

Please do not copy, reproduce, share, publish, modify, distribute or use any part of Snype or its content without first obtaining written permission from us or the relevant rights holder.

We value the birding and citizen science community that helps make tools like Snype possible. For that reason, we are generally happy to consider reasonable requests to use parts of Snype content.

Please contact us before using any Snype material so that we can understand how it will be used, provide the correct version where appropriate, and confirm any required acknowledgement or conditions.

Where Snype includes or refers to third-party data, bird records, names, images or other content, those materials remain the property of their respective owners and may be subject to separate terms, licences or permissions.
