

# INFLAMMATION MIGRAINE IV DRIP

## BENEFITS

- **Reduces Inflammation:** Helps alleviate inflammation-related symptoms, including joint pain and swelling.
- **Migraine Relief:** Specifically formulated to reduce the frequency and intensity of migraine attacks.
- **Enhanced Well-being:** Supports overall health, reducing the impact of chronic inflammation on the body.
- **Boosts Energy Levels:** Contains B vitamins that help improve energy and reduce fatigue.

## SCIENCE

- **Lactated Ringer's or Sodium Chloride 0.9% 500-1000ml bag:** This acts as the base solution, hydrating your body and helping to deliver the other nutrients effectively.
- **Pyridoxine (Vitamin B6) 100mg/ml - 1ml:** Vitamin B6 plays a crucial role in reducing inflammation by aiding in the production of neurotransmitters and supporting the immune system.
- **Magnesium Chloride 200mg/ml (20%) - 5ml:** Magnesium is known to have anti-inflammatory benefits and is effective in preventing and alleviating migraines by relaxing blood vessels and reducing blood pressure.
