

2020 Legislative Session

Key Actions Summary

The Second Regular Session of the 65th Idaho Legislature began on January 6, 2020, and adjourned Sine Die on March 20, 2020. The 2020 session saw legislators deal with a number of familiar themes including: public school funding and teacher salaries, property taxes, water, sales taxes, and elections. The ending days of the 2020 session saw the Legislature work under national and state emergency declarations issued by the President and the Governor to combat COVID-19.

Among other legislative actions, the Legislature provided additional funding for teacher pay under the career ladder. That legislation also added an advanced professional compensation rung to the career ladder.

Regarding elections, the Legislature provided that a fiscal impact statement must be added to all future statewide ballot initiatives and that initiatives be limited to a single subject. In other matters, the Legislature authorized the Department of Fish and Game to consult with other agencies to identify suitable land for shooting ranges and to establish the Public Shooting Range Fund to provide financial assistance to develop and improve ranges. The Legislature also addressed occupational licensing by providing for an Occupational and Professional Licensure Review Committee and to provide for universal licensure in certain instances. Regarding general government matters, the Legislature revised provisions relating to the state's public records law by clarifying certain public records request requirements and providing an exception regarding legislative communications. Regarding transportation matters, the Legislature revised the sales tax distribution to the Transportation Expansion and Congestion Mitigation Fund and established a Bridge Maintenance and Replacement Program Fund. Also, the Legislature approved a bill that prohibits the use of electronic devices while driving a motor vehicle.

There will be a proposed constitutional amendment on the general election ballot in November 2020. The Legislature approved a joint resolution placing on the ballot a proposal to amend the Idaho Constitution by fixing the number of state legislative districts at 35; currently, the Constitution sets the number of legislative districts at no less than 30 and no more than 35.

As for statewide budget matters, FY 2021 revenue projections represent the tenth consecutive year of growth in the state. In January 2020, the Division of Financial Management revised the FY 2020 revenue forecast upward to \$3.96 billion, representing 6.1% revenue growth over FY 2019 collections. The Economic Outlook and Revenue Assessment Committee (EORAC) concurred with the projections from the executive branch for the purposes of setting budgets in FY 2020. As for FY 2021, the Division of Financial Management provided an original forecast of \$4.15 billion; however, EORAC recommended JFAC and the Legislature use a revenue forecast of \$4.13 billion and employ a cautious approach for budgeting. JFAC used the EORAC recommendation for setting budgets. In terms of compensation for state employees, the Legislature followed the recommendation of the Joint Change in Employee Compensation Committee, which included a 2% salary merit increase for state employees. Several bills impacting revenues are still being considered at the time of this publication. *(See General Fund Comparison on the last page of this report for additional information.)*

Finally, legislators wrote more than 775 pieces of draft legislation, of which approximately 67% (525) were introduced as bills. The following several pages are a summary of selected key actions that successfully made their way through the legislative process in the 2020 Legislature. *(A more complete document, the Sine Die Report, will include an expanded overview of legislation, the total volume of legislation, administrative rules, and a more detailed look at the Legislature's budget decisions. All legislators will receive a copy of the Sine Die Report in two to three weeks.)*
