**Federal/National/International Agencies speak out against restrictive prescribing policies and legislation:**

**Even a recent CDC Workgroup says:**

"In essence, clinicians should be able to use their clinical judgment to determine opioid dose and or duration for their patients"

**American Medical Association** →

"State & Fed Gov, Med Boards, Pharmacies, & others have gone too far.."

**Health & Human Services** →

CDC Guidelines should have never been used for laws or to judge prescribing

"The national crisis of illicit drug use, with overdose deaths, is confused with appropriate therapy for patients...This confusion contributes to raise barriers to proper access to care."

**Contact us:**

**C50@painadvocate.com**

**(202)792-5600**
