

## **The black horse and the Bible:**

Here is a picture of a black horse with a red halter that is tied up.

If we translate this into Spanish, it will STILL say that it is a black horse with a red halter that is tied up.

If we translate this into Greek, it will STILL say that it is a black horse with a red halter that is tied up.

If we translate this into Hebrew, it will STILL say that it is a black horse with a red halter that is tied up.

If we translate this into any other language, it will STILL say that it is a black horse with a red halter that is tied up.

Someone might say that they don't like black horses and they will say that the picture doesn't really show a black horse, but could be any horse. However, the TRUTH is that the picture does show a black horse.

Someone may say that a black horse shouldn't have a red halter and so the halter on the horse could be any color. However, the TRUTH is that the picture does show a red halter on a black horse.

Someone may say that horses shouldn't be tied up and that's not really what's happening in this picture. However, the TRUTH is that the horse is tied up.

Are you beginning to understand?  
People who DON'T want to believe the Bible will attempt to distort what it says. However the TRUTH of God's Word never changes.
