

Geo-Form Grout Bags

The *Instant* Concrete Forming System

Geo-Form Grout Bags:

- Improve safety
- Reduce costs
- Easy to install
- Lightweight
- Ergonomically designed
- Requires no special mix
- Watertight sealing method

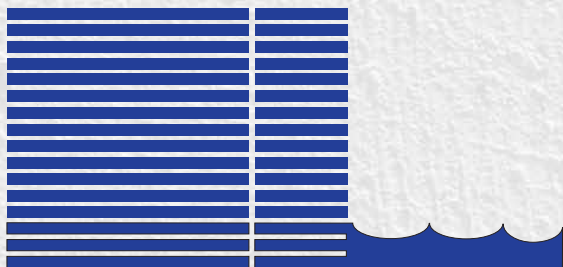

Geo-Form Grout Bag Construction Includes:

- High strength polyethylene fabric
- Reinforced construction
- Custom manufacture to any shape or size
- Choose from two styles of self-sealing ports

Installation in 3 Easy Steps:

1. Take measurements of the area to be filled
2. Lay out bags
3. Pump self-sealing bag with grout

Structure Guard, Inc. was founded in 1991 by James J. Curry IV, to create reliable solutions for the power and construction industries by thoroughly designing and testing products in the field. In addition to Geo-Form Grout Bags, Structure Guard, Inc. also manufactures water filtration products.

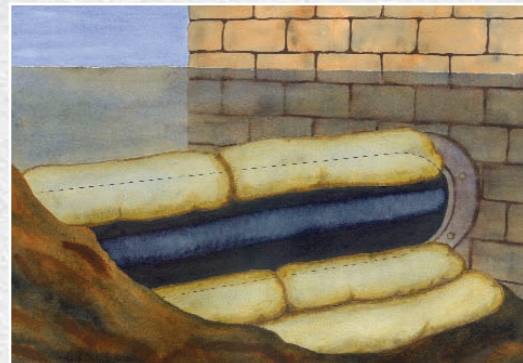

STRUCTURE GUARD, INC.
