

BioCompin

**Our online program is aimed from
basic concept to advance method**

Basic Bioinformatics

- Introduction of Bioinformatics
- Updated Database Search
- Sequence Retrieval
- Sequence based Data Analysis
- Smart and Advanced tool based on AI
- Evolutionary sequence Analysis

Applied Bioinformatics

- Molecular Modelling & Docking
- 3D & 2D RNA & Protein Modelling Prediction
- Molecular Interaction Study
- Advanced 3D Structure Analysis, Prediction & Structural Validation

**Duration 30hr
Get at 15k**

Every Saturday & Sunday

Eligibility

Open to all individuals with an interest in bioinformatics and computational biology

Course Fee & Feature

For Indian Participants:
15000 INR
For International Participants:
200 USD

E-Certificate
Recorded class
Practical based training
