

Paper: Child Abuse (Round III) – Should Be Obvious, But Apparently It’s Not!

Date: 30 Jan 2023 [rev. 08 Feb. 2023]

By: D. R. Shearer

Topic: Of all the truths that have come forward since March 2020, the most insidious one would have to be the knowledge of the systemic demolition of children. This phenomenon has been occurring right under our noses for at least 39 years, and probably longer. This paper presupposes this topic with the idea, “We can’t fix what we don’t define or know as broken”.

Introduction

The main overriding Truth that came out over the past 3 years is that humanity is under the control of a globalist elite structure, for the purposes of concentrating wealth to a small percentage of individuals. But this is not the whole picture. If it were, then they have accomplished this task to a very large degree, for a long time now. The whole picture, which is in keeping with an agenda that lacks human empathy, love & brotherhood, is that it also is seeking *total control*. It is not the intent of this paper to supply proof of this claim. The proof has been clearly available for most of 3 years time now, so one is free to see the information for themselves, if they so choose.

The intent of this paper is to go over a much more critical portion of the intent to control – and that is the destruction of children. There is a theory that states that attacking the children, from a satanist agenda, is the best way to go against [“hurt”] God – attacking the innocence of the child. While this rings true, again, “why” or “who” is not the topic of this paper, but rather “what” – so that we can fix it!

The History of Attacking the Kids – Round I (1984)

The information as revealed from our Truth Centre contains a few points that may be pertinent in looking back to see where the origins of abuse (round one) began with the children. Again, the proofs of these points will not be discussed (for reasons of space & practicality). But the information is there, if one chooses to see it, and the points are:

- 1) “Infectious contagion” & “viruses” are a complete hoax. By simple deduction, therefore the terms variolation & vaccination, and what they are/were intended to do, are *meaningless*.
- 2) The childhood/young adult vaccination schedule, from the latest data, is as follows, from birth to 18 years of age:
 - a) U.S.A. - >76 vaccination doses [31jan23]
 - b) Canada – 48 vaccination doses

The obvious question then would be (from point 1) – “What is the purpose of this vaccination?”

- 3) The Amish community does not have autism. The Amish community does not vaccinate.

- 4) (1988) Vaccines can cause encephalitis (swelling in the skull). If the skull is a strictly limited space then this swelling would be able to produce a seriously constrictive condition resulting in death (SIDS).
- 5) The vaccine/autism connection could be simply and conclusively 'put to bed' if we were to do a survey of unvaccinated children and their relative health conditions. This survey, to my knowledge, was completed possibly by one concerned doctor. As far as I know it did not get on mainstream media.
- 6) The 54.1% childhood disease rate was not present when I was a child (1959 to 1969).

It is clear, by this information that the first significant attack on children began when these two things occurred:

- a) when Reagan signed the bill to remove liability from big pharma regarding the practice of vaccination (1984), and
- b) the vax schedule, at this time, also went through the roof, as noted above.

The History of Attacking the Kids – Round II (2022)

The mainstream media narrative was as shocking as it was brash, when it sprang on us a few years back – “Kids can have strokes and heart attacks too!” Anyone with any logic would be able to see right through this kind of a suggestion. But that may only be possible if they were to recognize some of the information from the previous section on ‘Round I’. Well, as most know now this suggestion/prediction turned out to be true. Odd it is that athletes have been and are, dropping in record numbers. When the segment of our population that possess the highest level of cardio-vascular fitness start dropping like flies, maybe there is a cause for concern (see refs).

The History of Attacking the Kids – Round III (late ‘22)

Having grown men dressing up like women is rationally an oddity in itself. But everyone has a right to Life, Liberty & Property, **as long as they do not impose on another’s right to Life, Liberty & Property**. So when a grown man dresses up like a woman, their right to do so ends **before** they decide to entertain children with story books. The deliberate intention to create ‘gender dysphoria’ in young children is **not OK**. This isn’t some ‘take it or leave it’ rule... this is God’s Law.

Critically - The “Normalization” Issue

During the past 39 years, the issue of ‘autism’ has been normalized in our (North American/Western) civilization. That is the mass majority of the population has come to accept this situation as “normal”. Even though a 54.1% childhood chronic disease rate goes completely against intuitive common sense, nevertheless, it has cemented itself in the collective human psyche as a “normal” condition.

The past couple of years has shown Round II as being the new step in the ‘normalization’ process, in that now we are supposed to believe that strokes and myocarditis (inflammation of the myocardium of the heart) are natural events for a child. At least that’s what the bus ads & mainstream media tells us.

[Latest – “Global warming” is now linked to ‘blood clots’ (!?)]

The simple factor as illustrated in point 5) above could be applied during this 2nd round of attacking the kids. But alas, it is the mainstream narrative that dictates the masses behaviour, so surveys like this will never be put forward, or even conducted.

Now we find ourselves at the end of the 3 year debacle, we are ‘given’ the 3rd round of the attack on the kids – the creation of **gender dysphoria**. Simply put, when parents & facilitators press the situation of ‘drag queens’ giving ‘story times’ to children, they are creating gender dysphoria or gender confusion in our children & grandchildren. The fact that these folks lack the common sense to see what they are doing is another topic, as this papers intent is to provide the plain Truth of what is occurring.

But for those who may be confused as to what they are imposing on the children, the following notes are from a therapist who has been working with sexual offenders for over 30 years. His name is John Uhler and one of his video interviews is at the end in the references section. Here are some key points of the gender dysphoria issue for anyone who requires more information on the damage being caused:

John Uhler – 15,000 clinical contact hours; >30 years of practice

- Paedophilia is being **normalized** – aka the ‘trans’ deception
- There are bloody psychopaths & white collar psychopaths.
- Psychopath (defn.) - financial, medical, sexual, etc.
 - has no conscience – progressive path to conscience violators.
- Today you will never find a man who has not sexually offended and has not had a history of deeply steeped pornography.
- Pornography is the undisputed common denominator of sex offenders.
- Sex offenders whose victims are below the age of puberty -
 - 100% are found to be in possession of ‘child rape pornography’,
 - 98% are found to have been charged with the dissemination/distribution of this material.
- We are told that the sex offender is ‘working out’ his own psycho-dynamics by choosing a victim that is about the same age as he was when he was abused – This is not true.
- Progression of a sex offender from young adult days:
 - pornography – adult
 - “barely legal” pornography – adult women dressed as kids/kids dressed as adults*
 - child pornography
 - “snuff” pornography

* If the individual does not retreat at this stage then it will lead to the point of no return with the remaining stages of progression.

* The Canadian euthanasia laws now facilitate ‘snuff porn’ in that it is – “silence the lambs” (see next).

- A lot of sex abuse victims will take the secret to the grave.
- Perpetrators, predators, manipulators – the only thing from stopping them from crossing boundaries is the other person (potential victim). The mechanism that humanity has to protect themselves is intuition. They work on victims to turn down their intuition – so that you don't trust yourself.
- “Furries” – favourite method of grooming. Extremely deviant group. In many cases their identity is also hidden.
- Sex offenders – “Cannot believe how naive parents are!”
 - Perpetrators now can do fairly safely what used to get them 5-10 years in prison.
- As a man sinks deeper into porn – he develops a malevolence toward women – moves from attraction, to lust, to deviance.
 - Deviance (defn.) - Has a progressive trait. A rewiring of the brain. The adherent only becomes sexually stimulated when he knows he's having a negative impact upon the woman or child. No man is attracted to a child's body.
- **There is no such thing as a “trans” person. Rather,** there are people who:
 - a) **are confused**
 - b) **have felt the effects of molestation**
 - c) **have allowed themselves to be deeply steeped in pornography.**
- Prior to 2005 **there was no “trans” movement.**
- Society must ask itself – “What are its priorities - The sensitivity of men or the safety of women & children?”

Conclusion

There are excuses and deceptive verbal concoctions that are utilized when the issues of the usefulness of drag queen story times become the topic. Some of these fall under the category of clever syllogisms. But there is a distinct bottom line to this topic which draws a **hard line** and is not open for discussion. Having a distinct birth date (2005), it is not hard to see that anyone who became a founding member of the trans movement was simply a victim of mental manipulation. The kind of manipulation that comes from such things as a very young mind being subject to grown men dressing up like women.

The findings that come from a therapist with over 30 years/15,000 hours of clinical time, are good enough to hold up in human court. God's Court also has something to say about this issue and the other 2 rounds on the abuse of children. It can be found in His Book, Luke 17:2 -

“It were better for him that a millstone were hanged about his neck, and he cast into the sea, than that he should offend one of these little ones.”

Lastly, it is our job as caretakers of this planet is to apply love, mercy and forgiveness. This is the true path to Light & Life, which will imminently be settled on this planet. However, endless forgiveness

that is balanced off with endless and unindicted abuse is not progression but results in selfish self gain (for some). This is a karmic wheel of ever-degrading circumstances. For this reason, forgiveness must be instead 'balanced off' with the requirement for compensation for the victims of intentional abuse.

The compensation phase will enable the realization that Truth will prevail, to the ones who wish to think that 3 rounds of massive child abuse is "OK". It is the will of those who stand with Truth that will eventually overcome the great financial resources of those who wish to decimate the planet and its population [the now widely known 'eugenics' movement].

Introduction

The 'globalist (elite) agenda' should be a known phenomenon for anyone on the planet who is paying attention (beyond mainstream media), and is concerned about the current state of affairs. From this, it is easy to see, (partially taking note of the proceedings at the "drag queen story time" rallies) that the attack on humanity and the children is a *psychological procedure*. Without going into the reams of paper that the understanding of this 'procedure' requires, I submit the following article along with these remaining words:

Strength, power & success will come to those of us who understand this 'procedure' that is attempting to destroy civilization, from a psychological perspective. The perpetrators who are bringing this insidiousness to our schools and libraries have been guided to proceed with a very crafty psychological master strategy. This strategy on the surface purports to be claiming to stand for "love" and "diversity". At the same time it labels any opposition as the opposite to these claims – as "haters". This is a brilliant plan that has captured folks within our communities that one might think would be smart enough to see through the 'strategy'. But they are sadly & clearly not. Two points here:

#1 – The 'Strategies' Frail & False Foundation -

Claiming the tenets of "love" while parading grown men dressed up as women in front of children who are less than the age of 18 IS a frail & false notion, at best. Simply put, especially for the children who are below 7 years of age, the sure result of such practices is the creation of *gender dysphoria* (aka gender confusion). No one in their right mind would disagree with this claim. When gender dysphoria creates in the mind of a young person the need to surgically alter their sexual organs, you are left with an individual who will go through life essentially with a neutered, mutilated body that is incapable of reproduction (globalist key plan incidentally). Again, no one in their right mind would say that this situation would naturally lead to **happiness** within this individual. What you are left with is an extremely confused & unhappy individual who has been coerced/programmed to scream out "trans rights!" This information is coming out now by testimony. And it leads to point #2,

#2 – The Psychological Distortion Imposed Upon the "Trans" Mind -

Common to the trans movement mind is the equally corrupt psychological coercion that has taken place and continues to take place with another planned and destructive attack on the kids – the autism

phenomenon. **The key [obvious] take away here is that the decisive and planned 2 items (trans & autism) has occurred because *someone* decided to impose these things on our healthy and balanced childhood population.** For members of these 2 populations to think that the main focus of their attention should be on those who would be inclined to remove pain & torture from the planet, *rather than* on the perpetrators who actually imposed these items on the population, is ludicrous. And the way that this population has been coerced to put their attention/hatred on those who would be inclined to **stop** this insidiousness, is by psychological manipulation. One method is by the use of syllogisms. The syllogism is where you have a main topic (A) and add to it a side issue (B) to come up with a seemingly related (but not) conclusion (C). In the case of the trans coercion you have the main topic (trans phenomenon) and add to it the opposition (imposed gender dysphoria is wrong) to come up with an *unrelated* conclusion masquerading as a *related* conclusion (opposition of trans manipulation are haters).

While the evil, well-financed destruction of our children (3 Phases) has a well thought out (psychological & otherwise) grand strategy, it will ultimately fail, after continuing yet to claim hundreds of thousands of victims (see Luke 17:2). While the current regime of ‘freedom truthers’ are having to play catch up, after 39 years of child manipulation for profit, it is incumbent upon them somewhat to learn of the tactics of the insidious ‘ruling class’. Because when one learns of deception, it kind of takes the punch out of the program, and at the same time strengthens the opposition movement & direction at the same time.

44% of Canada’s gender-confused prisoners are in jail for sex crimes: gov’t report

The report found that 94 percent of the ‘trans’ offenders committed their crimes while identifying as their biological sex.

Anthony Murdoch - Tue Feb 7, 2023 - 4:59 pm EST

OTTAWA (LifeSiteNews) — A recent report by Correctional Service Canada (CSC) shows that almost half of gender-confused male inmates are in prison for violent sexual offences.

The study from 2022 titled, Gender Diverse Offenders with a History of Sexual Offending shows a troubling trend amongst gender-confused male inmates who claim they are women.

Around 44 percent of “transgender” inmates are in jail because they committed a sexual offense.

The study looked at a sample group of 99 inmates from the years 2017 to 2020. The average age of the offenders is 42 with half of them serving “indeterminate” sentences.

Other findings from the study show that “Over 80% of gender diverse offenders with sexual offence histories were trans-women.”

The study also found that about two-thirds (66%) had “low reintegration potential.”

Around 64 percent of the offenders had committed a “current sexual offence,” with a whopping 88 percent having been previously convicted of sex crimes.

Of note is that 94 percent of the “trans” offenders committed their crimes while identifying as their biological sex.

The overwhelming majority, or 85 percent, of the individuals, were convicted of having committed a violent crime that caused death or harm to their victims, of which 58 percent were women or children.

A total of 70 percent of the “trans” offenders themselves had experienced sexual abuse as a child.

Another recent study investigating Sexual Coercion and Violence (SCV) in Canadian federal jails has found that so-called “gender diverse persons” have been linked to being a subgroup of instigators in aggressive sexual attack incidents in prisons.

As noted by a Correctional Service Canada’s (CSC) research brief dated from last year, the “victims and instigators in SCV incidents were most often men, with smaller subgroups of women and gender diverse persons.”

“Instigators often had histories of sexual aggression against other inmates, while victims often demonstrated previous vulnerability in the inmate population,” said the CSC.

According to official records, in 2021, 93 individuals in Canadian federal jails were in the “gender diverse persons” category. Most of these individuals are in male prisons.

LifeSiteNews reported last May that Canadian biological males who “identify” as “women” were officially allowed to be transferred from a men’s prison to a women’s if they ask and their request is approved.

This came about as a result of a new CSC policy saying that inmate transfers will be allowed regardless of “gender identity or expression.”

In 2017, Prime Minister Justin Trudeau said he would look to allow “transgender” or “non-binary” inmates to serve their jail sentence in the prison that most closely matched their claimed “gender” identity.

However, many women’s rights groups, including those with LGBTQ and pro-abortion agendas, blasted the move to allow biological men into a women’s jail as a threat to one’s safety.

Heather Mason, a former federal prisoner and spokesperson for Canadian Women’s Sex-Based Rights, said that female prisons will have to increase security because of a man’s more aggressive tendencies.

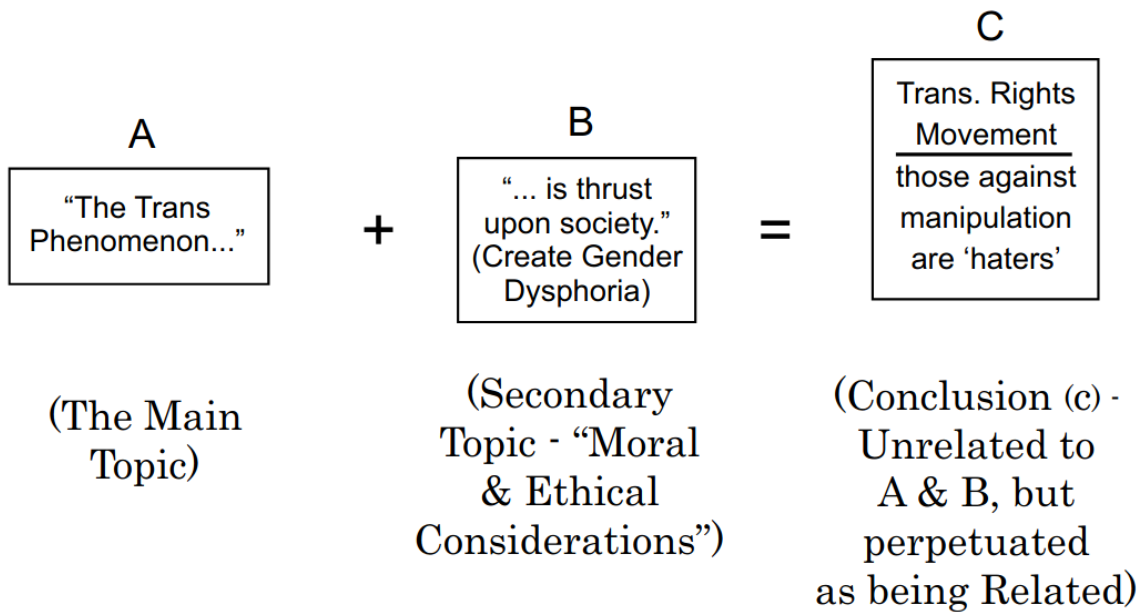

Mason noted that women’s jails have fewer “security measures” and there are no “weapons” but only an “eight-foot fence.”

Last year, a Parole Board of Canada (PBC) decision revealed that a female prisoner was frequently sexually assaulted by a biological male who was allowed to be jailed at the Grand Valley Institution for Women in Kitchener, Ontario.

This resulted in recent protests at multiple jail locations in Canada, as well as some in the U.S., which also have a few states that allow “trans women” to be housed in male prisons.
