

DID THE DOLLAR YOU SAVED ON A WATER PRESSURE SWITCH YESTERDAY PUT YOUR COMPANY UNDER WATER TODAY?

For over 70 years, the Square D brand has set the standard for pressure switch performance and longevity, making it the #1 brand in the industry. Competitors may try to imitate the innovation and reliability built into a Square D brand pressure switch, but what they claim to save you in initial cost will be more than lost in maintenance frequency and even calamity due to product failures. By relying on a “knock-off” pressure switch, you will find yourself “under water” ...in more ways than one...

What worldwide detection provider should you rely on for your water pressure switch solutions?

STABLE. DEPENDABLE.
