What This Is

Reclaiming the Crown is an intimate lifestyle social and guided conversation centered on inner beauty, resilience, and renewal.

Through storytelling, reflection, and a collective release ritual, guests are invited into a space designed for presence, *connection*, and intentional return.

This is not a performance.
It is a *gathering*.

Intimate. Grounded. Intentional

VISIONARY & SPEAKER

Why This Gathering Exists

After years of working behind the scenes, helping to shape some of your favorite beauty brands, Ebony stepped away to heal, rebuild, and *reimagine* her work on her own terms.

This experience marks a return rooted not in visibility--- but in *authorship*.

Guests are invited to witness that return and reflect on their own moments of *rebuilding*, transition, and renewal.

Come for the conversation. Stay for the healing.

Who This Is For

This gathering is for those who:

- are ready to *reconnect* with themselves
- are rebuilding quietly
- are navigating *growth*, reinvention, self-love or transition
- believe beauty is *lived*, not performed

The Guest Experience

- A guided conversation
- Warm, *curated* social atmosphere
- Reflection moments for personal insight
- A non-religious fire *release ritual*
- Refreshments
- Private residence
