

Arizona Free Enterprise Club

Since 2005, the Arizona Free Enterprise Club has been the leading organization dedicated to advancing a pro-growth, limited government agenda in Arizona.

Through active lobbying, litigation and their extensive grassroots network, the Club has secured numerous policy victories in the state, including historic income tax cuts, enhanced election security, expanded school choice and protection of our property rights, medical freedoms and free speech.

Below is the link to sign up and get login credentials for the Request To Speak system. By email, you will receive information on bills to which you can voice your support or opposition. The process takes about five minutes. You will get credentials from the capitol and put on their action list. Also the Arizona Free Enterprise Club is a good way to stay informed about the issues, at the state level that affect your daily life.
