## SENATE DISTRICT 3 VISION

---

This district has been losing support for the Democratic Party and the ideals of equal opportunity, good education, fair treatment of all citizens and lack of access to decent jobs, housing, and food for over 20 years. The Republicans have convinced local people they are superior, and we are "evil" while calling us names and blaming Democrats for their governing failures. They have raised taxes, shifted power to Austin and stripped rural areas of the power to improve the lives of residents. People who used to be Democrats just aren't voting and the Texas Democratic Party needs people like me to listen and serve. It needs you too. We all must pitch in to reach out and reverse the apathy in our communities. Will you help?
