Dear Member,

While State Aid funding for public libraries has increased slightly, it has still not gotten to a sustainable level for our libraries. Pennsylvania libraries welcome, and need, Friends continued financial support for their programs and services. Advocacy by PCBL, its members, and public libraries must continue throughout the year.

PCBL needs your continued support for its advocacy and continuing education efforts. We thank you for your past support in these endeavors. Now is the time to get ready for 2026 and part of that preparation is renewing your PCBL membership so that we can continue our work in library advocacy and assisting Friends Groups.

**Please take time now to renew your membership for 2026.**

PCBL plays a number of roles in library advocacy and Friends education:

- PCBL works with, and assists in the training of, Friends, trustees, and library staff.
- PCBL provides continuing education opportunities for its members through sponsoring the Friends Institute or simply providing speakers for your regular Friends meetings.
- PCBL members participate in State and Federal legislative actions affecting libraries.

Communications among Friends is critical and important. Please provide your email address so that we can communicate with you.

Equally important is our website ([www.pcbllpa.org](http://www.pcbllpa.org)). The site is complete with information on membership benefits, annual awards, how you can contact us, and other PCBL activities. Check this website often for updates about PCBL and other happenings in the state. You can renew your membership at this site and pay for it online.

PCBL needs your commitment, your voice, and your support.

**Please Renew Your Membership Now  
Thank you**
