Elm Lodge Residential & Nursing Home

Care where you need it,
when you need it.

elmlodgecare.com

Our Home

Elm Lodge is an imposing Victorian residence, dating back to 1881, which has been extended over the years to accommodate 64 residents. It is set slightly back from the main road, in a smart residential area in Linslade, on the outskirts of Leighton Buzzard.

Elm Lodge, a family-run care home since 1980, was purchased by Rochemont Care Ltd in January 2022. Rochemont, also family-run with decades of experience in London and Southeast England, is managed by second-generation social care providers. Many team members have been with Elm Lodge for decades, fostering a genuine sense of ownership and pride in our service.

Personalised Comfort

Our home includes three units and offers lounges, dining rooms, a quiet room, training and meeting rooms, a hair salon, and a landscaped garden. We accommodate 64 residents in single rooms with ensuite options and provide accessible bathrooms and mobility aids. Residents enjoy private, customisable rooms with comfortable furnishings.

Meals are nutritious and tailored to individual dietary needs. Our activity coordinators plan a variety of events to keep residents engaged physically and mentally. We use the Care Vision digital system for personalised care planning and ensure all staff undergo rigorous checks and ongoing training.

Prospective residents are welcome to visit and experience our inclusive, supportive environment. We emphasise privacy, dignity, independence, choice, rights, and fulfilment, consulting various professionals to meet each resident's unique needs.

Nursing Care

As a nurse-led nursing home we can cater for a variety of needs and conditions and provide a homely and professional service.

Palliative Care

We focus on ensuring that each person lives well in their final days and experiences a dignified, peaceful passing in the manner and setting they prefer.

Dementia Care

We provide comprehensive residential care and support for individuals at all stages of dementia, from early onset to more advanced stages.

Short Term Care

Although not our primary goal, Elm Lodge is well equipped to provide short-term care for convalescence or respite purposes subject to availability and assessment.
