- 1-2-1 Life Coaching

The Reality of Care & Support Work

We understand the daily stress and challenges that Care Professionals face

- Shift work places a strain on mind and body
- Emotional strain of daily work e.g. End of Life
- Financial pressures – rising costs of living
- Absence for sickness reasons impacts my monthly earnings directly

Organisation

Current benefits a poor fit

Benefits currently open to not relevant to Care Professionals

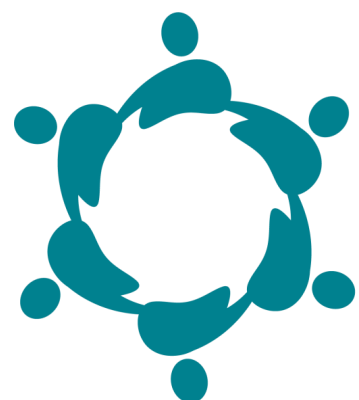

- Often too complicated and difficult to access
- Only available Mon – Fri 9am – 5pm
- Designed for Office Workers not Care Workers
- Don't benefit me directly to help with monthly bills

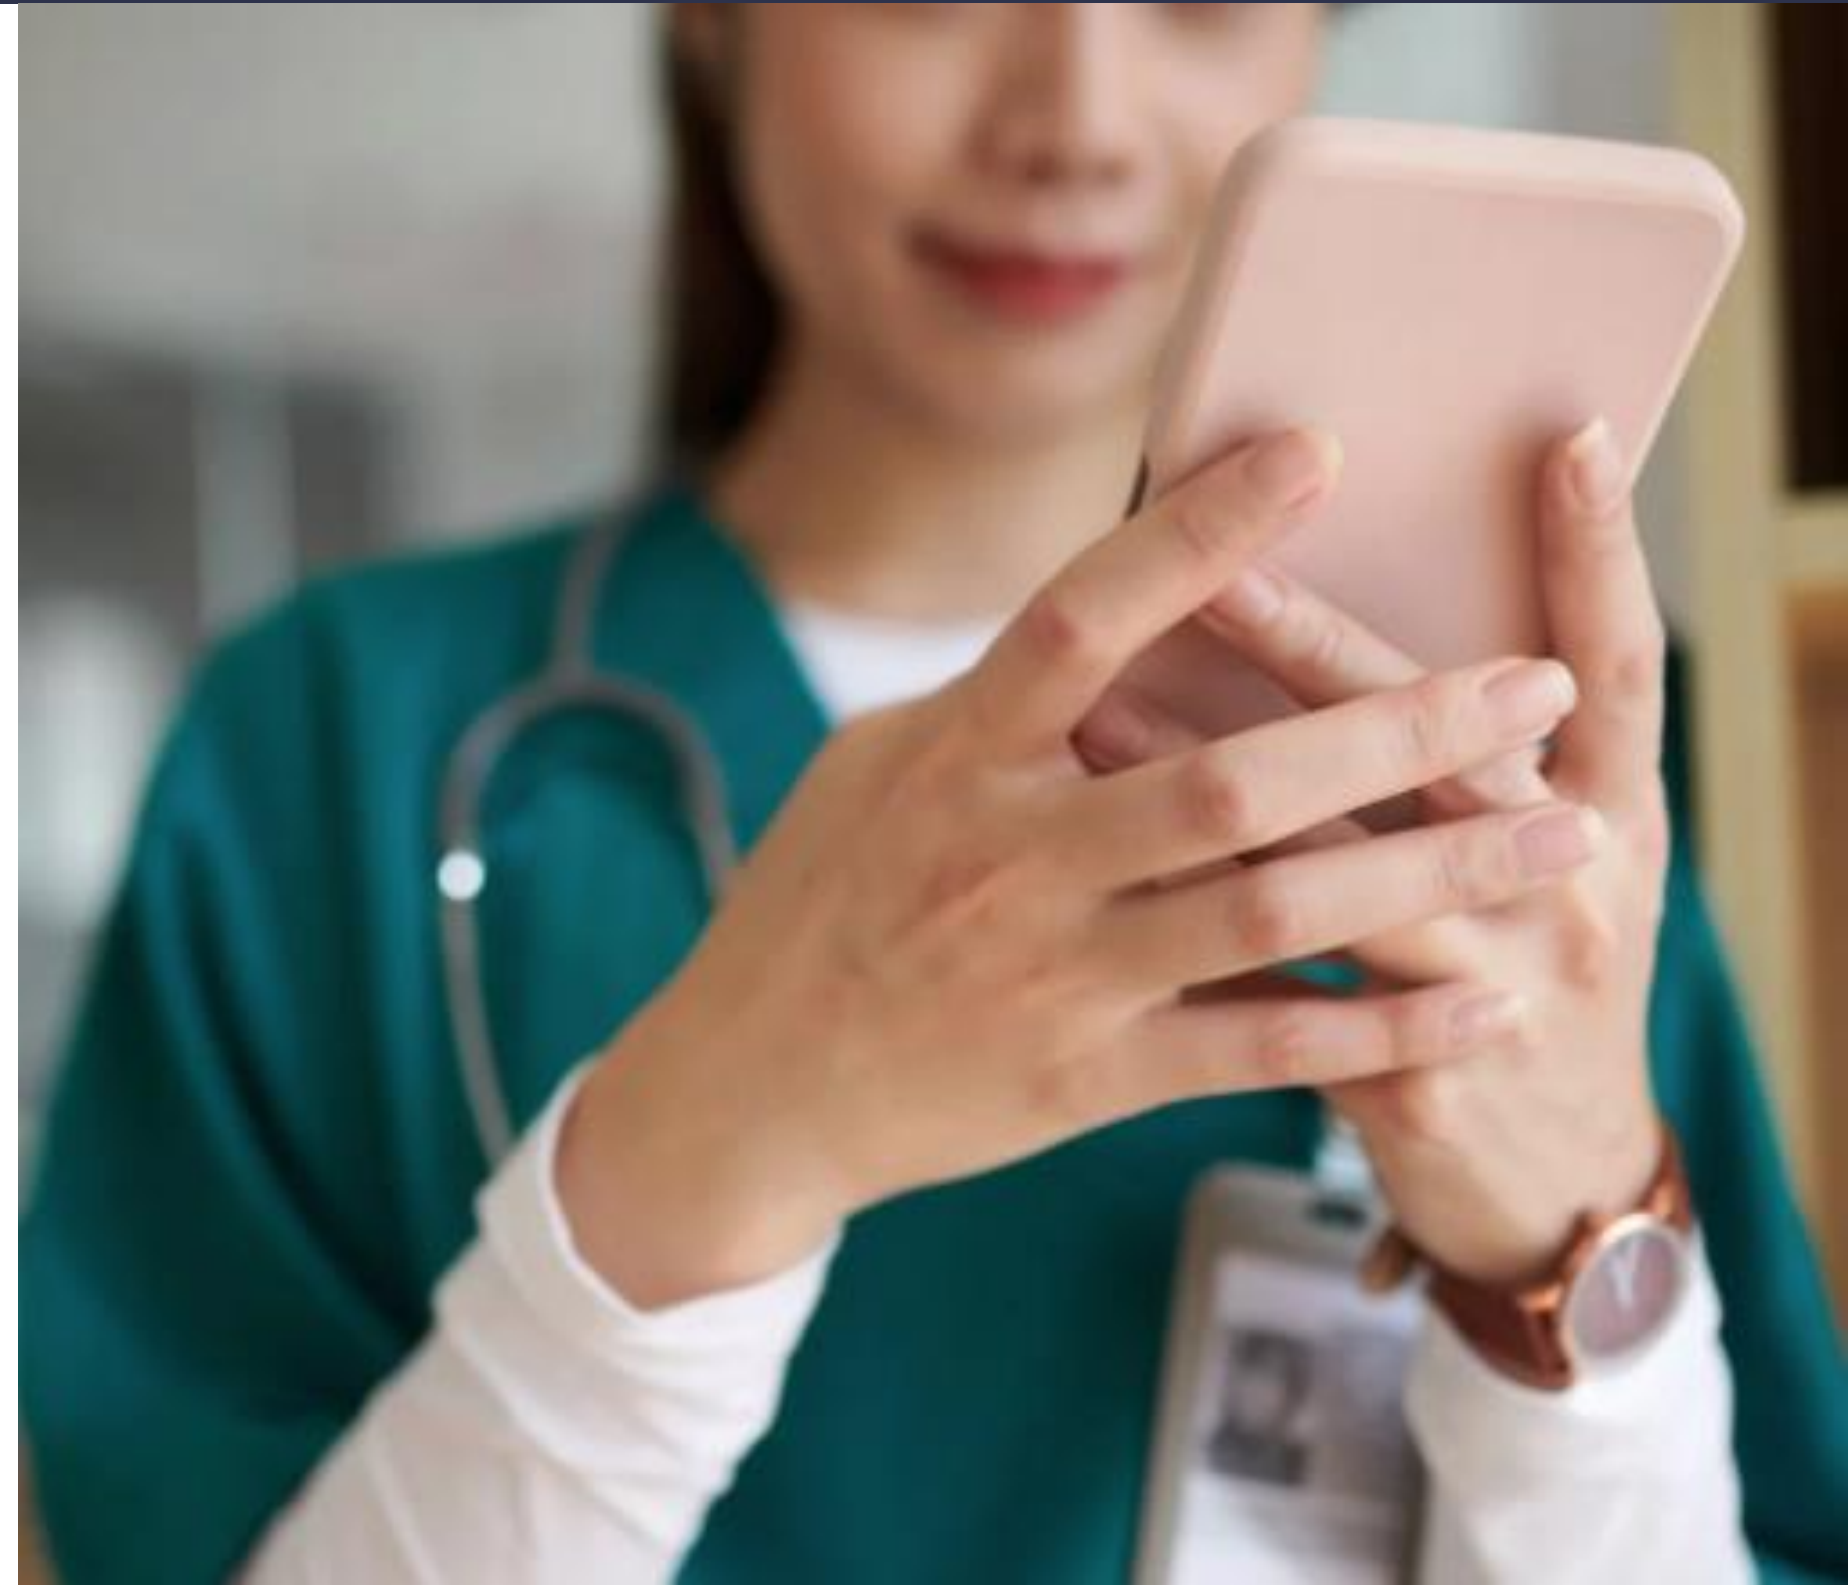

Benefits that make a difference

Testimonials

Fabulous programme

The discounts for stores and supermarkets are fantastic along with the GP service which I have used. I had a called from the GP within the hour and a prescription sent to my local chemist, very impressed.

Mohammed Patel

A brilliant service

A brilliant service! So quick and easy to get a Doctors appointment and you're assessed and prescription ready for collection (if needed) in no time. Our account manager, Kevin, is really fast to reply and very supportive. All employees here that have used the service are very impressed. Many thanks.

Lisa, Care Sector

360 Well-Being - Best all round service in the market

The 24/7 access to a GP alone is life-changing. It's an absolute no-brainer for anyone, especially if you have a family. No more sitting on hold with 111, no repetitive questions, no unnecessary stress — just fast, professional medical advice, prescriptions when needed, and peace of mind.
