

SPONSOR A STUDENT

Are you ready to learn?
we wish you a great year ahead.

Help us remove financial barriers

One of our goals is to ensure that every interested student can attend the conference regardless of financial circumstances.

Student registrations are offered at no cost through sponsorship support.

Your contribution helps provide:

- Conference admission
- Educational materials
- Networking opportunities
- Awards dinner participation
- Exposure to environmental career pathways
- Leadership development experiences

Our Challenge

We invite businesses, organizations, community leaders, alumni, and individuals to sponsor at least **three students** to attend the conference.

Your support today helps cultivate tomorrow's environmental leaders.

As the creator economy continues to expand, it promises a future where diverse voices flourish and creativity knows no bounds, paving the way for a more inclusive and vibrant media landscape.

Become a Sponsor Today

Join us as we work together to build sustainable futures through climate action, education, and community resilience.

Africa Environmental Watch

7th Annual Conference

Climate Action & Community Resilience

November 7, 2026
