**UK GDPR, AI Governance & Cyber
Education Specialists**

Data Protection Officer Service

2025/26

firebirdltd.co.uk

About Us

At Firebird, we understand the pressures schools face in keeping data safe, meeting legal requirements and managing growing online risks, including the use of Artificial Intelligence.

Our team of experts have been supporting maintained schools, federations, multi-academy trusts, special schools, alternative provision and independent schools with their data protection compliance for over 7 years, with over 120 schools trusting us to act as their outsourced Data Protection Officer.

We provide a range of services dedicated to schools:

- **Data Protection (UK GDPR) Compliance Services:** Exceptional, personalised Data Protection Officer Service and Subject Access Request Disclosure Service.
- **AI Governance Toolkit and AI Advice Services:** Comprehensive toolkit of colourful, easy-to-use resources, designed to help schools harness AI tools safely, responsibly, ethically and in compliance with their safeguarding obligations, UK GDPR requirements and the Department for Education's AI standards.
- **Cyber Security Advice Service:** Practical advice and guidance to help schools prevent and respond to cyber incidents and threats.

"We believe compliance isn't about ticking boxes. It's about giving schools the confidence that they are meeting their legal duties, staying secure and using AI technology safely, so they can focus on what they do best-educating and inspiring young people."

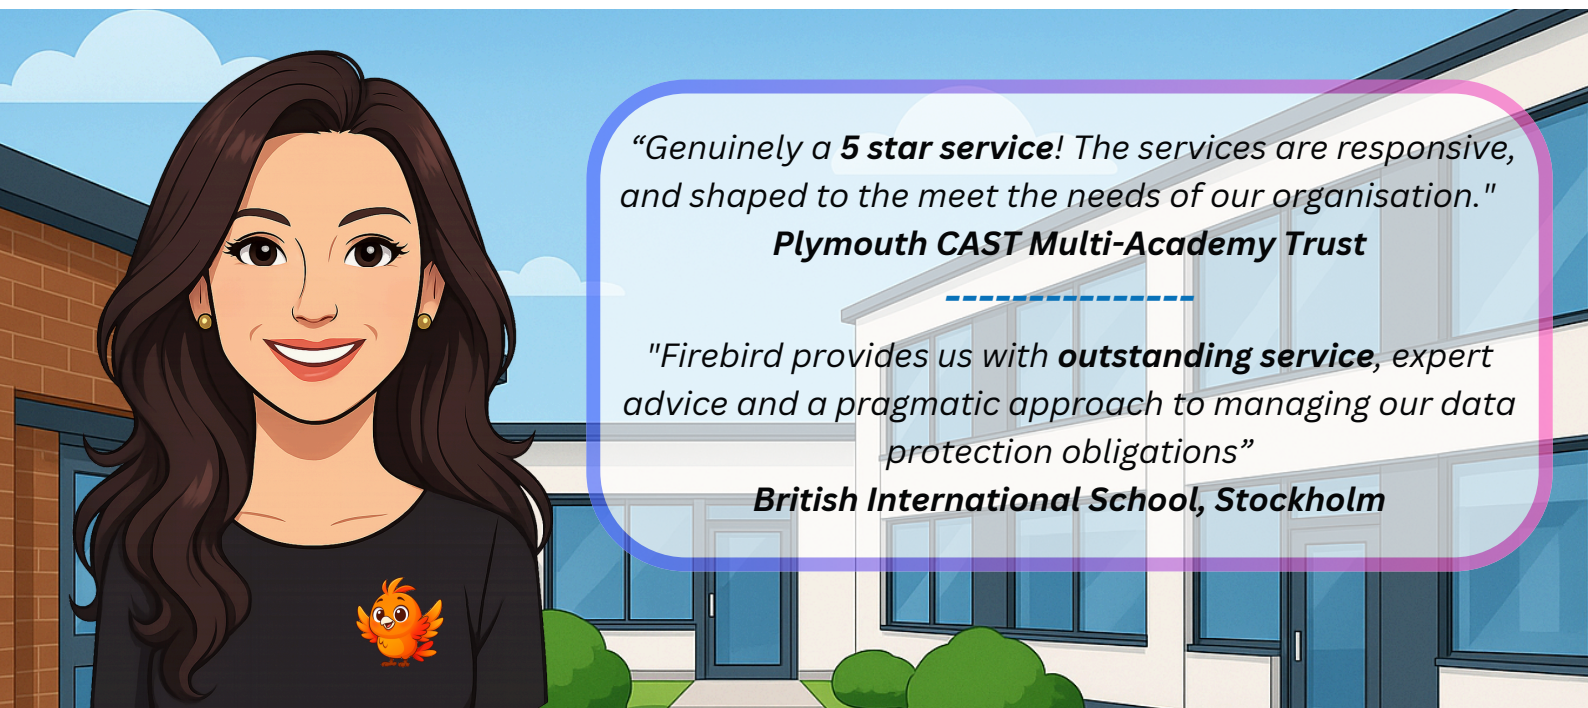

Amber Badley, LLM Founder and CEO of Firebird Data Protection Consultancy
