# About Us

At Firebird, we understand the pressures companies face in keeping data safe, meeting legal requirements and managing growing online risks, including the use of Artificial Intelligence.

Our team of experts have been supporting organisations for over 7 years, with over 120 trusting us to act as their outsourced Data Protection Officer.

We provide a range of comprehensive services:

- **Data Protection (UK GDPR) Compliance Services:** Exceptional, personalised Data Protection Officer Service and bespoke privacy management services.
- **AI Governance and Advice Services:** Comprehensive toolkit of colourful, easy-to-use resources, designed to help organisations harness AI tools safely, responsibly, ethically and in compliance with the UK GDPR requirements.
- **Cyber Security Advice Service:** Practical advice and guidance to help organisations prevent and respond to cyber incidents and threats.
- **Direct Marketing Compliance Services:** Comprehensive review of our customer's direct marketing practices, to assess whether they comply with the Privacy and Electronic Communications Regulations (PECR) and the UK GDPR.

*"We believe compliance isn't about ticking boxes. It's about giving organisations the confidence that they are meeting their legal duties, staying secure and using AI technology safely, so they can focus on what they do best."*

**Amber Badley, LLM Founder and CEO of Firebird Data Protection Consultancy**

*"The Data Protection Officer services we receive from Firebird are outstanding! Their expert and personal service is invaluable to us as a company, particularly when dealing with due diligence questions from our customers."*
