

AI Essential Toolkit for Schools

Is your school ready for AI?

Artificial Intelligence (AI) is reshaping how schools teach, plan and manage everyday tasks. From students experimenting with ChatGPT to staff using AI for lessons and admin - its impact is growing fast!

Schools need clear policies, procedures and training to ensure AI is used safely and responsibly. **Here's how Firebird can help:**

AI Policy and Acceptable Use

Model AI Policy and Acceptable Use Agreements for staff, pupils and students, setting out their responsibilities when using AI in school.

Managing AI Risks & Consent

Practical guidance on how to manage generative AI risks, with easy to follow guides, detailed templates, privacy notice updates and checklists.

Training and Awareness

Easy to understand staff training videos on how AI works, its limitations and risks and standards for safe practice; AI awareness posters for students/pupils.

DPIAs and Due Diligence

Pre-completed risk assessments (DPIAs) for ChatGPT, CoPilot and Gemini; AI tool compliance checklists to help you assess tools against the DfE's standards & UK GDPR.

***From only £399 (ex VAT)**
