

Amerishade®

St. Augustinegrass

Best for heavier shaded areas.

The most shade tolerant
St. Augustinegrass available
is Amerishade®.**

It also has a rapid rate of spread with less vertical growth than other St. Augustinegrass, producing approximately 50% less clippings, reducing the mowing frequency.

Intended User: Commercial/Residential

Mowing Height: 1 ½" - 3"

Maintenance and Quality

- Low seed head formation
- Weekly mowing frequency
- Dark green color
- Moderate fertilizing frequency
- Medium leaf texture
