

Vi VIONEK

VIONEK TECH

Internationally Certified Laser
Safety Eyewear

Audit-Ready Laser Safety Partner

|From Eye Protection to Audit Protection|

Lasers used in medical, diagnostic, and industrial applications pose serious eye and skin hazards if not properly controlled.

During Factory Safety, NABH, NABL, ISO and internal EHS audits, laser safety compliance is a key checkpoint.

VIONEK helps you stay audit-ready with internationally certified laser safety solutions.

What Auditors Look For

- Correct laser safety eyewear for wavelength & power
- OD (Optical Density) marking & certification documents
- Laser hazard signage & controlled area identification
- SOPs for laser operation & emergency procedures
- Evidence of eye safety controls during laser use
- Non-compliance can lead to audit observations, notices, or delays in certification renewal.

How **VIONEK** Supports You

Audit-Compliant Laser Safety Eyewear

- Internationally certified goggles (EN/ANSI standards)
- Wavelength-specific protection(UV,Visible,IR)
- Medical & industrial laser compatibility
- Clear OD charts for audit verification

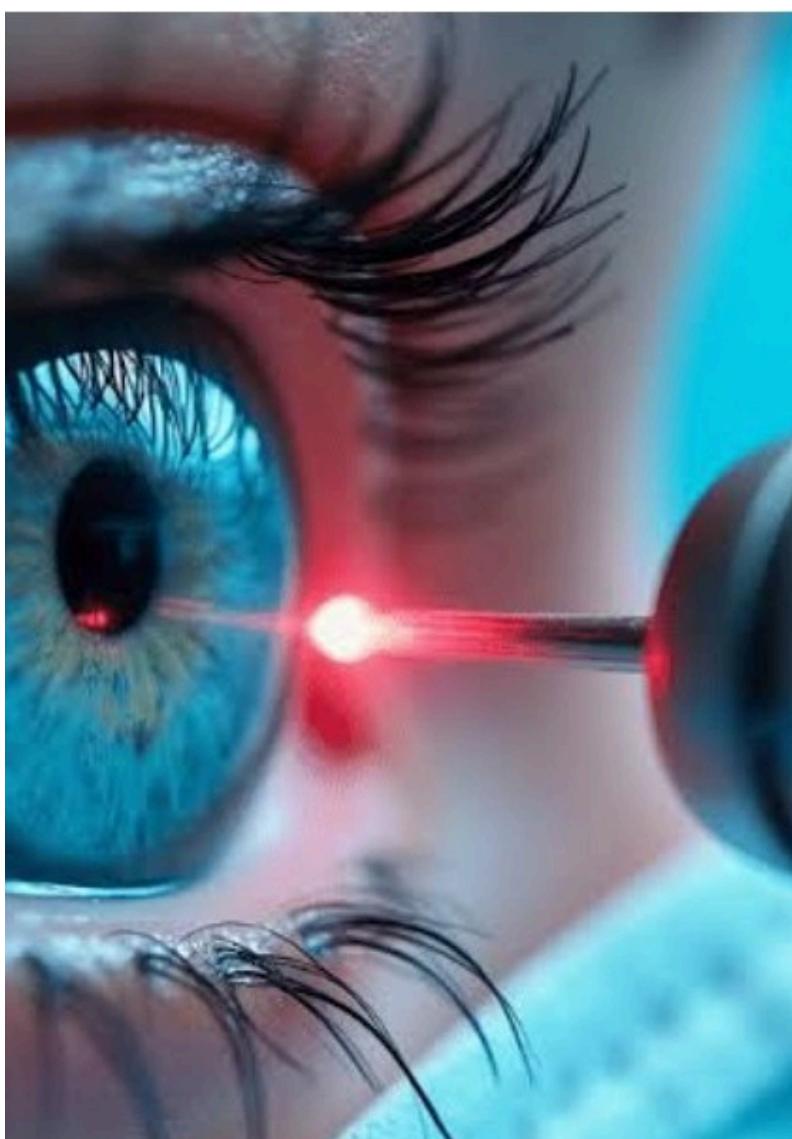

Documentation Support

- Declaration of Conformity
- OD charts & filter specifications
- Compliance-ready product datasheets

Pre-Audit Readiness

- Guidance on selecting correct eyewear
- Support during annual / renewal audits
- Ideal for new laser installations& upgradation

Why Choose **VIONEK**

- PAN-India Supply
- Trusted by Medical & Industrial Users
- Focused on Audit Readiness, Not Just Products
- Ethical, Transparent & Compliance-Driven
- We don't just sell goggles, we help you pass audits with confidence.

Ideal Time to Contact Us

- ❖ Before Annual Safety / ISO / NABH / NABL Audit
- ❖ Before Installing a New Laser Machine
- ❖ During Expansion or Equipment Upgrade
- ❖ After Receiving Safety or Compliance Notice
