NOVEMBER MEETING

WMC's 1ST-year budget for Fox Lake fish stocking plan was completed October 10th. We stocked

(192) 13" Musky Fingerlings in a partnership venture with the Fox Lake Preservation Organization (FLPO). The FLPO and our Club released on the same day, (1,500) 7" Walleyes, (4,000) 5" Black Crappies, and (3,750) Yellow Perch.

The FLPO organized this stocking project along with the Wisconsin DNR and SAGES Agricultural and Environmental Charter Elementary School in Fox Lake. SAGES school planned a field trip for their students with this stocking project. The WI DNR's involvement offered the children educational insight into fish stocking and some hands-on experiences getting the fish into the lake. Nice Job! Our Club participated with several of our members releasing the muskies.

Thanks to Dave and Mary LaPine, Greg and Doris Rubin, Paul Klein, and Richard Feustel with two South Milwaukee Police Officers for assisting with boats and "member-power," on that day in October. Richard pointed out... "It is the most muskies he will every have in his boat."

Also, a big Thank You goes out to Tim Nehls, Chris Falkenstein, and John Lorenty of the Fox Lake Preservation Organization (FLPO) for

organizing this stocking project and inviting

us join the project. The DNR deserves a thank you for their meaningful, hands on, program they presented that day to the students of the SAGES Agricultural and Environmental Charter School in Fox Lake. Our members all reported that the actual fish were excellent looking specimens. The donated muskies were from the Gollon Hatchery in Dodgeville.

DECEMBER MEETING

NEXT MEETING: Wednesday December 6th, 7:00 pm. This will be an **Election of Officers Meeting**. We also will be doing some Club planning for 2024. This meeting is designated as "Pizza Night" from Joe's Fox Hut. We need your help in the leadership and the planning of our 2024 year. Please consider signing up for a committee to work specifically for an outing or event.
