Julian Siu

CONSERVING TODAY TO ENRICH TOMORROW

Julian Siu is a built heritage expert with extensive experience in providing pragmatic solutions. Client focused with great service delivery, he provides conservation advice, impact assessment and heritage management reports for diverse heritage assets. He has developed strategic management frameworks for heritage in the context of change for major infrastructure, urban development, precinct renewals and divestment.

Julian specialises in built heritage, adaptive re-use and heritage interpretation. His knowledge of heritage planning and advanced project management skills has seen him successfully coordinate major projects for private and government clients.

Julian's advisory services have contributed to a multitude of signature development projects in NSW and Victoria. Julian is also adept in community consultation and engagement with Traditional Custodian groups. Julian enjoys collaborating with design professionals, property owners, developers and industry organisations to deliver projects that balance heritage conservation with urban renewal and reimagined design responses.

EXPERIENCE

HERITAGE STRATEGIST & COLLABORATOR

SIU CONSULTING PTY LTD
July 2025 - Present

After working for over a decade with one of the Australia's largest heritage consultancies, Julian has embarked on a new venture to combine his expertise and experience with a more agile and nuanced way of working. Collaborating closely with clients, design professionals, and other specialists to understand project needs and ambitions and translate them into reimagined heritage outcomes.

PRINCIPAL GML HERITAGE PTY LTD

July 2010 - July 2025

Subject matter expertise for built heritage management, development advice and assessment, legislative requirements and technical standards. Heritage advice and assessments on complex, high-profile and sensitive government projects, major infrastructure, Transport Oriented Development, State Significant Infrastructure/Development projects involving State, Commonwealth and National heritage values and places. Impact assessments, and approvals under local environmental plans, *Heritage Act 1977* (NSW) and *Heritage Act 2017* (Vic) as well as the *Environment Protection and Biodiversity Conservation Act 1999* (Cth).
