*We take every measure possible to successfully renovate your hat; however, we DO NOT guarantee that all stains will come out. The type of stain, age of stain, and overall condition of the hat will determine the success. We DO NOT cut the brim of your hat; however, it is possible for the brim to shrink up to 1/4". The stiffness of the hat could also be affected. The hat renovation is a rough process and Standard Hat Works will not be responsible for damages to the hat. Please understand that the renovation is at your own risk.
