

**Disclaimer:** At [Access Home Inspections](#), we believe that having the right contractors can lead to the success of any project. So to help homeowners, we've compiled a directory of contractors to help them find the supplier they need. Each contractor in the list has had positive reviews from other home inspection clients of Access Home Inspections.

Before selecting a contractor, please be sure to review those you plan to hire to determine if they have the capabilities to provide the goods and services you need. Be sure to check on their credentials including the validity of their licenses and the associations they're a part of.

Access Home Inspections makes no warranty or guarantee for any work performed or the business practices of these contractors. We also do not provide a specific endorsement for any one contractor listed in the directory.

**General Contractors:** These contractors provide multiple services including, complete home renovation, windows, painting, roofing, siding and more.
