

IoT: Overhead Door Sensor

Patent Pending

Model: SEN-1

Features and Benefits

- Tracks door open/close cycles
- Provides total cycles, daily/monthly averages and cycles since last maintenance work was performed
- App recommends what maintenance should be performed based on usage

Simple Installation

- Installs quickly
- Works on any style of OHD
- Mounting fasteners included

Technology

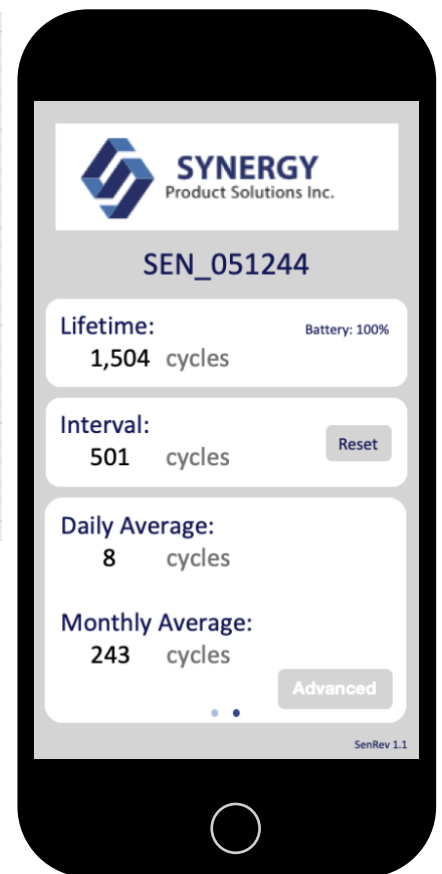

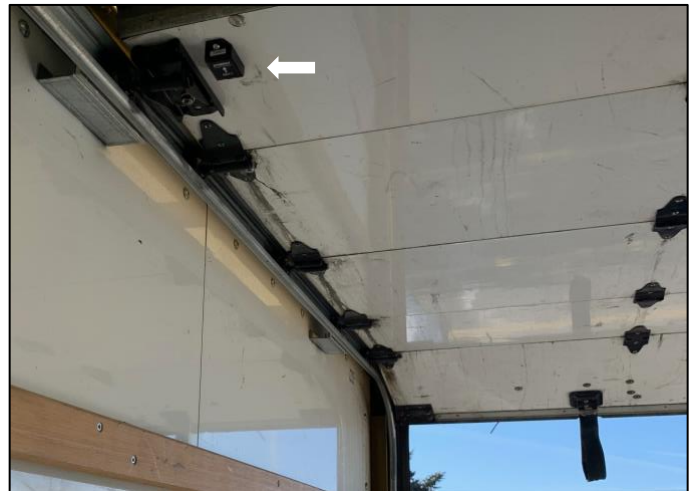

- Wirelessly connects to mobile device
- Application reads sensor information
- Works on both Android and iOS

Base Specifications

- Length: 2.50 in (63.5 mm)
- Width: 1.25 in (31.8 mm)
- Thickness: .58 in (14.7 mm)
- Weight: 19 grams

Ordering Information

- Part #: SPS – SEN001

Base specifications are accurate at the time of publication, and are subject to change without notice.
