## Boost your Testosterone...

*"Recent statistics show that 1 in 4 men over the age of 30, now suffer from the effects of low testosterone!"*

Boosting T levels (testosterone) can improve performance in the gym, as well as the bedroom. As we age our testosterone naturally declines, and many factors increase the decline, including chemical toxins naturally found in the environment, and regular household products. Men with higher T levels typically have a higher quality of life by attaining an elevated mood, increased energy, higher muscle retention and strength, as well as proper hormonal function.

# BOMBA V

NATURAL ENHANCEMENT

Our Bomba V synergistic formulation of active ingredients have been specifically developed to offer a natural and safe solution for male performance issues.

**Wildcrafted Long Jack** - (*Eurycoma longifolia*) is a tall, slender evergreen shrub-tree commonly found in Southeast Asia. Malaysian men claim that tea made from this plant improves their sexual abilities and virility. Studies have shown it's ability to boost testosterone.

**Organic Maca Root** - (*Lepidium meyenii*) is a plant native to Peru, that has been used for centuries for its sexual enhancement qualities. Also traditionally used for energy, athletic performance, and fertility.

**Organic Fenugreek** - Traditional uses include boosting performance, balancing hormones, and boosting testosterone.

**Organic Tribulus Terrestris** - Studies have shown this ingredient to be an effective testosterone booster, thereby making it effective for sexual and athletic performance.

**Organic Eleuthero Root** - Used to boost energy levels, enhance stamina, promote overall health and increase athletic performance. It has been used as a natural medicine in China, Korea and Russia for many hundreds of years.

**Organic Damiana Leaf** - Damiana leaves have been used as an aphrodisiac and to boost sexual potency by the native peoples of Mexico, including the Mayan Indians.

**Organic Saw Palmetto** - An ingredient traditionally used to promote testosterone levels, as well as sex drive. It has been shown in studies to improve prostate health in men.

**Organic Korean Ginseng** - A potentially effective, alternative for men with erectile dysfunction. It may improve this life altering condition, by increasing nitric oxide production, relaxing blood vessels and promoting blood flow. This also gives a boost in athletic performance and endurance.

Herbal Supplement

# An Advanced Blend of Natural Performance Enhancing Ingredients!

"I was a big advocate for the original BombaV formula... that is until I tried this new version. Good results have now become great!"

- Dan J.

## Why Choose Organic?

Choosing organic supplementation is especially important in the natural enhancement category. Toxin levels found in farmed ingredients are at an all time high all over the world. This includes heavy metals, chemical herbicides and pesticides. Toxins not only reduce the effectiveness of natural ingredients, but in extreme instances may even cause harm to the consumer. For these reasons, we have focused on the quality of our organic ingredients and increased the potency and effectiveness of our "tried and true" Bomba V formula.

"I know as we age we tend to lose a step or two, but with this product I feel like I traveled back in time. Enough said."

- Charles S.  
Amarillo, TX
