IF YOU SUFFER FROM ACHES OR PAINS CAUSED BY INFLAMMATION, YOU'LL WANT TO TRY NOPAVERA!

What is Nopavera?

Nopavera is a sublingual wellness supplement sourced from the fruit of the Nopal cactus and Aloe Vera. Just a dropper full under the tongue, twice a day, is changing lives across the globe! Nopavera features a powerful class of antioxidants called bioflavonoids. Bioflavonoids have been scientifically proven to help the body detoxify and reduce inflammation.

Inflammation and free radicals are molecules which can cause irreversible damage to cells, often the result from environmental toxins, trauma, nutrient deficiencies and even stress. Damaged cells beyond repair, typically die prematurely. Dead cells that are not expelled from the body can become a point of infection, or other illnesses. Bioflavonoids in nopal cactus may help protect against toxicity and inflammation that often leads to these serious health conditions.

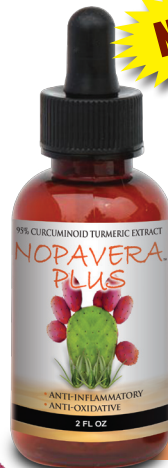

NOPAVERA contains a highly concentrated dosage of Prickly Pear Betalain which has been shown to be a natural free radical scavenger with antioxidant properties. It has also been traditionally used to balance blood sugar levels.

NOPAVERA has shown to be an effective relief for the following health problems:

- Muscles, Joint and Body Inflammation** – causing joint, muscle and body pain
- Respiratory Inflammation** – causing allergies and breathing difficulties
- Arterial Inflammation** – causing heart health problems
- Digestive Tract Inflammation** – causing bloating, cramps and burning
- Widespread Body Cell Inflammation** – causing overall fatigue
- Extreme Blood Sugar Levels** – that may lead to type 2 diabetes

“I started using Nopavera for my neuropathy in my hands. My hands are pain free! I don't plan to stop using this amazing product!”

NOPAVERA PLUS™

WHY DID WE CREATE NOPAVERA PLUS?

The fact is, we all know there are many levels of pain and inflammation. While original Nopavera has provided a natural and effective means of pain management for countless consumers, there are still many who require a more comprehensive approach for relief.

We achieved this by adding a high potency turmeric extract, followed by a synergistic blend of nutrients and enzymes. Nopavera Plus provides a very effective anti-inflammatory boost to the original formula, for those who need it, without sacrificing taste or adding flavoring agents.

“Nopavera Plus with Turmeric gave me the added anti-inflammatory boost I needed for my joint pain.” - Vince C.
