

Mt Buller/Stirling Municipal/Mountain Emergency Management
Plannning Committee (MEMPC)

Report to MBRA AGM May 20, 2025

This Report is brief because, as reported to the 2024 AGM, contrary to the wishes of the Buller MEMPC, in February, 2024, the ARV advised of the appointment of “an overarching MEMPC which will develop a single MEMP for all of the resorts. Feeding up into the ARV MEMP will be resort specific Emergency Management Plans (EMPs) which will address the more localized risks and be more specific to the resort’s location, infrastructure and community.”

Not only has this ended a functioning Planning Committee with local initiatives, it has also ended the formal association with Mansfield Shire which was a key partner in the MEMPC.

To date, the MBRA has not been included in any development of the Buller EMP.

Ron Edwards

MBRA rep. on former MEMPC
