TECH SPECS

- + Low-profile system designed to fit invisibly within the structure of the boat.
- + Manufactured in highly polished 316-grade stainless steel with spring tensioned arms for a constant taut canvas.
- + Horizontally mounted from above or below depending on the boat design.
- + The adaptable design offers coverage up to a maximum extension of 2.2 meters, with a maximum width of 4 meters.
- + Quick release 316 stainless steel support struts available for securing the awning to the deck when deployed.
- + Supplied as 12- or 24-volt system with soft start and stop operation.
- + IP65 rated control box complete with electrical overload safety trip. Deutsch connectors plug and play connections supplied as standard.
- + Operated by a two-way switch as standard (boat builder supplied) with a manual override for extending and retracting the awning in case of power outage. Bluetooth and remote-control systems are also available on request.
- + High quality marine-grade fabric options available in a choice of colors.
- + 316 stainless steel front valance bar can be profiled to match the boat. If required, it may be clad with a trim panel to match the boat (boat builder supplied).
- + All systems are supplied fully built and cycle-tested prior to dispatch.
- + 2 Year warranty period from date of dispatch (full details available on request)
- + Optional 3-year extended warranty available.

SUN AWNING

The industry leading Makefast USA Sun Awning offers the ultimate solution for a luxury retractable shade system.

The Makefast USA Sun Awning offers temporary shade out of the glare of direct sunlight, creating a perfect area for entertaining or just enjoying the view!

Awnings can be situated on any deck, on any size boat.

The Makefast USA Sun Awning is designed to be discrete, utilizing a near-silent motor.

The low-profile system retracts fully inside the structure of the boat and is hidden from view.
