ALLSKIN | MED

WHEN SCIENCE MEETS EXPERIENCE

REVEAL YOUR SKIN'S TRUE POTENTIAL

DISCOVER ALLSKIN|MED

ALLSKIN|MED from Cantabria Labs is a professional-grade skincare range with a simple philosophy: to make you feel great in your skin and give you complete skin confidence.

Available exclusively from ALLSKIN|MED Partner Clinics and their expertly trained ALLSKIN|MED Specialists, the ALLSKIN|MED range includes a selection of multi-tasking products that target every layer of skin to deliver remarkable results.

Combat tired, ageing skin with ALLSKIN|MED. Its clinically-proven formulations are packed with powerful technologies, yet the approach remains gentle and luxurious. Reveal brighter, smoother and younger-looking skin with ALLSKIN|MED's skin-loving formulations, which you'll love to use every single day.

FROM CELL TO SURFACE

Following years of dermatological research, ALLSKIN|MED delivers optimum results with its innovative Integral Layer System. This multi-layer approach is the most effective treatment for both short and long term results, targeting the skin's deepest cells along with the superficial layers.

Each ALLSKIN|MED product contains a combination of active ingredients and clinically-proven technologies. The six core active technologies - retinoids, growth factors, AHAs, vitamin C, anti-pollution complex and high sun protection - are all derived from intelligent patented ingredients which harness the power of nature. These core technologies work in perfect synergy, making real skin improvements from cell to surface.

KEY INGREDIENTS

RETINOIDS

Retinoids reduce the appearance of fine lines and blemishes as well as stimulating the growth of new skin cells. ALLSKIN|MED combines two types of retinoids: one that acts immediately, and one with delayed delivery via micro-sponges. This maximises results with minimal irritation.

GROWTH FACTORS

Growth factors repair the skin, improve its firmness and elasticity, and reduce the appearance of fine lines and wrinkles. ALLSKIN|MED features our patented growth factor technology SCA PRO, which is derived from the purified extract of snail.

AHAs

Alpha hydroxy acids increase exfoliation to reduce fine lines, minimise pores and create a brighter, smoother complexion. ALLSKIN|MED includes a powerful yet gentle combination of glycolic, citric and lactic acids.

VITAMIN C

Vitamin C is a skin-loving anti-oxidant which works deep within the skin to neutralise free radicals and protect skin cell DNA. On the surface, vitamin C balances skin tone and helps to reduce the appearance of dark spots.

ANTI-POLLUTION

Our anti-pollution technology is derived from Antarctic grass, which has the unique ability to protect itself from environmental stressors. EDAFENCE harnesses this power to strengthen the skin barrier and protect against external aggressors.

SUN PROTECTION

ALLSKIN|MED features FERBLOCK, a patented plant extract that is proven to protect against the sun's rays and reduce sunburn by 80%. This powerful technology also prevents DNA damage and boosts skin strength.

Each ALLSKIN|MED product is carefully created to ensure maximum efficacy with a luxurious, skin-loving feel. When combined, they target multiple skin concerns and treat your skin from cell to surface.

CLEANSING FOAM

A gentle micellar cleansing foam, formulated with Aqua Maris-based purifying ingredients and plant extracts to gently remove impurities, excess oil and makeup from the face and eye area.

FOR:

- All skin types

KEY ACTIVITIES & INGREDIENTS

- Purifying: Aqua Maris
- Anti-oxidant activity: Extract of Mimosa tenuiflora leaf
- Soothing: Hydrolysed oat protein

HOW TO USE:

Use twice daily. Pump into wet hands, work into a lather and massage over face and neck. Remove with a warm, clean cloth or rinse with water.

PIGMENTATION CONTROL SERUM

A beautiful, triple action serum that exfoliates to renew and brighten the skin. Its lightening complex targets each stage of melanin production and transfer, plus skin hydrators soften the skin.

FOR:

- Dull, sluggish skin
- Pigmentation associated with photo-damage
- Ageing skin

KEY ACTIVITIES & INGREDIENTS

- Cellular renewal: Retinoids
- Pigmentation suppressors: Kojic acid and N-Acetylglucosamine
- Skin brightener: Niacinamide
- Exfoliator: Salicylic acid
- Skin hydrators

HOW TO USE:

Shake well before use. Apply 2-3 pumps to the face and neck twice daily, avoiding the eye area. Avoid direct sun exposure and always use broad spectrum sun protection when using this product.

ESSENTIAL RENEWAL SERUM

A silky, lightweight serum that promotes cellular renewal to create a smoother, brighter and clearer complexion. Retinoids are delivered with both immediate and sustained release, which means less irritation. Anti-pollution technology also strengthens and hydrates your skin barrier.

FOR:

- Early prevention of photo-damage
- Reactive, delicate skin
- Uneven skin tone
- Blemishes

KEY ACTIVITIES & INGREDIENTS

- Cellular renewal: Retinoids
- Anti-pollution: EDAFENCE
- Skin barrier strengthening: Niacinamide and skin hydrators
- Skin soothers: Chamomile and liquorice extract
- Anti-ox complex: Vitamins C & E

HOW TO USE:

Apply 2-3 pumps in the evening to clean skin, avoiding the area around the eyes. A mild tingling sensation is normal at first. Avoid direct sun exposure and always use broad spectrum sun protection when using this product.

ADVANCED RENEWAL SERUM

A mid-strength serum with retinol activity to create brighter, smoother and clearer skin. Retinoids are delivered with both immediate and sustained release, which means less irritation. Anti-pollution technology also strengthens and hydrates your skin barrier.

FOR:

- Early prevention of photo-damage
- Reactive, delicate skin
- Uneven skin tone
- Blemishes

KEY ACTIVITIES & INGREDIENTS

- Cellular renewal: Retinoids
- Anti-pollution: EDAFENCE
- Skin barrier strengthening: Niacinamide and skin hydrators
- Skin soothers: Chamomile and liquorice extract
- Anti-ox complex: Vitamins C & E

HOW TO USE:

Introduce into your skincare regime gradually or step up from the Essential Renewal Serum to avoid skin sensitivity. Apply 2-3 pumps in the evening to clean skin, avoiding the area around the eyes. A mild tingling sensation is normal at first. Avoid direct sun exposure and always use broad spectrum sun protection when using this product.

ULTRA RENEWAL SERUM

A high strength retinol activity serum that creates brighter, smoother and clearer skin. Even at the highest strength, its unique retinoid delivery system ensures brilliant results without irritation. Its anti-pollution technology also strengthens and hydrates the skin barrier.

FOR:

- Established signs of ageing
- Expression lines and wrinkles
- Pigmentation
- Skin imperfections and scars

KEY ACTIVITIES & INGREDIENTS

- Cellular renewal: Retinoids
- Anti-pollution: EDAFENCE
- Skin barrier strengthening: Niacinamide and skin hydrators
- Skin soothers: Chamomile and liquorice extract
- Anti-ox complex: Vitamins C & E

HOW TO USE:

Introduce into your skincare regime gradually or step up from the Advanced Renewal Serum to avoid skin sensitivity. Apply 2-3 pumps in the evening to clean skin, avoiding the area around the eyes. A mild tingling sensation is normal at first. Avoid direct sun exposure and always use broad spectrum sun protection when using this product.

RETEXTURISING SERUM

A retexturising and smoothing serum with a high concentration of glycolic, citric and shikimic acids which are delivered with a gradual release. Its additional skin hydrators and soothers mean maximum exfoliation with minimal irritation.

FOR:

- Dry, rough texture
- Dull and sallow complexions
- Photo-damage
- Epidermal marks
- Enlarged pores

KEY ACTIVITIES & INGREDIENTS

- Exfoliators: Glycolic, citric and lactic acid cocktail
- Additional exfoliant: Shikimic acid
- Skin hydrators
- Skin soother: Niacinamide
- Anti-ox complex: Vitamins A, C & E

HOW TO USE:

Apply 2-3 pumps to cleansed skin in the evening, prior to your night cream. A mild tingling sensation is normal at first. Avoid direct sun exposure and always use broad spectrum sun protection while using this product.

FIRMING SERUM

A light, fast-absorbing serum that repairs and regenerates the skin whilst boosting brightness, firmness and hydration. Working deep into the dermis, this firming serum helps to improve the structural integrity of your skin.

FOR:

- Sensitive skin
- Photo-damaged skin
- Lines and wrinkles

KEY ACTIVITIES & INGREDIENTS

- Regenerating and repairing: SCA PRO growth factors
- Firming: Calcium and protein of soy
- Skin brightener: Niacinamide
- Anti-ox complex: Vitamins C & E
- Skin hydrators

HOW TO USE:

Apply 2-3 pumps once or twice daily to cleansed skin.

BRIGHTENING AMPOULES

A high intensity oil-free serum that infuses the skin with high levels of Vitamin C to brighten and purify the complexion while growth factors kick start your natural production of collagen and elastin to smooth lines and wrinkles. This 28-day course will awaken your skin and give it a rejuvenating boost.

FOR:

- Dull skin
- Lines and wrinkles
- Lax skin

KEY ACTIVITIES & INGREDIENTS

- Intensive brightening and anti-oxidant activity: 15% Vitamin C
- Regenerating and repairing: 20% SCA PRO growth factors
- Intensive moisturisation: Proteoglycans

HOW TO USE:

Apply one ampoule to cleansed skin every day for 28 days, morning or night for a high intensity boost.

REGENERATING AMPOULES

A rich, rejuvenating serum that's ideal for use alongside clinic treatments to enhance results and aid skin recovery, or to give your skin a rejuvenating boost. With very high levels of growth factors the serum gets to work deep within the skin for outstanding results, rejuvenating the skin, reducing lines and increasing firmness.

FOR:

- Lines and wrinkles
- Lax skin
- Dull skin
- Post-procedure skin recovery

KEY ACTIVITIES & INGREDIENTS

- Regenerating and repairing: 40% SCA PRO growth factors
- Anti-oxidant activity: Vitamins C and E
- Instant and long-lasting hydration: Moisturising active complex

HOW TO USE:

Apply one ampoule to cleansed skin in the evening or use as advised by your skin specialist.

RADIANCE GEL

An ultra-light, barely-there hydrating gel that contains a cocktail of protective and brightening anti-oxidants. Regenerative growth factors work at a dermal level to improve the skin's structure.

FOR:

- Reducing the first signs of ageing
- Dull complexions
- Sebaceous, combination skin
- Sensitive skin
- Summer hydration

KEY ACTIVITIES & INGREDIENTS

- Anti-ox complex: Vitamins C & E plus ellagic acid and caffeic acid
- Skin hydrator: Hyaluronic acid
- Regenerating and repairing: SCA PRO growth factors

HOW TO USE:

Use twice daily. Apply 2-3 pumps to the face and neck.

RESTORE CREAM

A rich and intensely hydrating cream that targets all layers of the skin. Its renewing, moisturising and soothing ingredients make it a real all-rounder, plus anti-pollution technology to strengthen and hydrate the skin's barrier.

FOR:

- All skin types
- Fine lines and established wrinkles
- Tired, neglected and sallow skin
- Rough texture
- Uneven complexion

KEY ACTIVITIES & INGREDIENTS

- Cellular renewal: Retinoids
- Anti-pollution: EDAFENCE
- Skin barrier strengthening: Niacinamide and skin hydrators
- Skin soothers: Chamomile and liquorice extract
- Anti-ox complex: Vitamins C & E

HOW TO USE:

Apply 2-3 pumps once or twice daily, avoiding the area around the eyes. A mild tingling sensation is normal at first.

REPLENISHING CREAM

A rich, nourishing and soothing cream with powerful growth factors and a skin-firming complex with immediate and long-lasting hydrators. This luxurious cream leaves your skin plump, hydrated and beautifully soft.

FOR:

- All skin types
- Moderate signs of ageing
- Dry, dehydrated and irritated skin

KEY ACTIVITIES & INGREDIENTS

- Regenerating and repairing: SCA PRO growth factors
- Immediate and long-lasting skin hydrators
- Firming: Calcium and protein of soy
- Anti-ox: Vitamin E

HOW TO USE:

Apply a pea-sized amount twice daily to the face and neck.

FIRMING EYE CREAM

A lightweight cream-gel that brightens and firms the skin around the eyes. Peptides help to reduce puffiness and dark circles, while soft-focus microspheres give instant luminosity and soften fine lines.

FOR:

- Fine lines and wrinkles around the eyes
- Thinning skin
- Loss of firmness
- Dark circles

KEY ACTIVITIES & INGREDIENTS

- Regenerating and repairing: SCA PRO growth factors
- Firming, decongestant peptides
- Reducing puffiness: Protein of soy
- Anti-oxidant activity: Superoxide dismutase
- Instant luminosity: Soft focus microspheres

HOW TO USE:

Apply ½ pump around the eye area and pat in gently.

MINERAL FLUID SPF50

An advanced sun protection product with 100% mineral filters. This silky fluid defends against the damage caused by UV, visible light and infrared-A, plus cellular DNA damage. Enriched with powerful anti-oxidants, it protects the skin from within.

FOR:

- Everyone, every day
- All skin types
- Post-procedure

KEY ACTIVITIES & INGREDIENTS

- UVA & UVB protection: Mineral filters
- Infrared-A and visible light protection: Physavie, Biomimetic Melanin and OTZ 10 Pro Taurine
- Powerful anti-ox: FERNBLOCK

HOW TO USE:

Shake well before use. Apply generously to the face and neck in the morning as the final step in your skincare routine, before make-up.

WHEN SCIENCE MEETS EXPERIENCE

ALLSKIN|MED was created by Cantabria Labs, a global dermatology company with decades of experience. Cantabria Labs are renowned for developing leading-edge, highly effective skincare technologies that people love to use.

As a family-owned business, Cantabria Labs has real heart and soul, and is driven by a passion that you might not expect from a large global organisation. They are hugely involved in charitable work both in Spain and worldwide. Their initiative, #togetherwewillgo far, covers four key objectives: the fight against poverty, the fight against hunger, the fight against sickness and the promotion of health.

Their eco-sustainable facility La Concha, based in Villaescusa, Cantabria, houses state-of-the-art manufacturing plants and dedicated areas for research and development; the perfect environment for the next generation of technologies to be rigorously tested.

TAKING CARE OF OUR PLANET

Cantabria Labs' philosophy 'celebrate life' is lived and breathed through every aspect of their business. They are committed to reducing single-use plastics and minimising their impact on the environment, and the La Concha facility helps to achieve just that.

The 'water lab' is powered by a geothermal spring, set in over 38,000m² of green space. This natural resource provides renewable energy for heating and cooling the laboratory, as well as providing mineral-rich, medicinal water for drinking and irrigation.

Their dedication to caring for, respecting and conserving the environment is also reflected in Cantabria Labs' patented technologies based on natural resources, such as SCA PRO, EDAFENCE and Fernblock, all of which feature in ALLSKIN|MED formulations.

OUR PACKAGING

The **digitisation of the internal product leaflet** has allowed us to reduce the use of paper and make information more accessible.

We have increased the size of our products to extend product use and decrease material consumption.

Our bottles are made of glass and can be easily separated from the dispensers, thus **facilitating recycling**.

All our boxes are **FSC® certified**, 100% recyclable.
