### Hunt Location

## ABOUT THE HUNT

### Summary

This is a four day Mule Deer & Antelope combination hunt. The hunt price is \$3,500.00 per person. We structure the hunt, two hunters per one guide. The hunt is based out of Buffalo, Wyoming. Clients will book a hotel, Airbnb, etc. in town. The afternoon/evening before the first day of the hunt, the outfitter will meet with the clients, assign a professional hunting guide, and sign the hunting license.

### Day-to-Day Outline

Your professional hunting guide will pick you up in the morning, before sunrise. You'll make the drive to the hunting area, which can vary in time, but is approximately 30 minutes. From there you'll begin the hunt with your guide. Hunt strategies can vary but your guide will do their best to cater the hunt to the clients abilities. Different strategies can include, but are not limited to, spot and stalk, and/or walk and stalk. While out in the field, clients will enjoy snacks in the field daily. Once it's dark, you'll head back to town where your guide will drop you off at your destination.

# I filled my tags, now what?

Once a client harvests game, your professional hunting guide will field dress the animal and return to town. From there, hunters have an option to elect to have the local meat processor (Big Horn Meats) take care of the animal. Or, the hunters can elect to take care of the animals themselves. If desired, animals can be caped, by a local taxidermist, in order to prepare for trophy mounting.
