About the Templates

Our templates are designed to be simple and achievable within a couple of hours, unless otherwise noted.

As the artist, you're free to add as much or as little detail as you like —there's no need to create an exact copy of the template. In fact, we love to see your unique interpretations and personal touches!

These templates are suitable for all ages. If there's a particular subject or theme you'd like to paint, additional templates can be provided upon request.
