Ribbon Project

We have continued our highly successful Ribbon project again this year. We discuss our dance room expectations extensively with students and have seen positive results when they are 'living' our philosophy. Students will be rewarded for their progress, work ethic, and character by receiving a ribbon from Jennifer or Kristi. This project is posted in our waiting room for all to see and participate.

Pink Ribbon

Technique Ribbon; Students show an improvement in retention, staging and/or class curriculum through their work ethic in & outside the of the dance room. Technique (proper execution of skill), remembering choreography, knowing your places in formations, and understanding the why & how of what we do in class will result in a pink ribbon.

Blue Ribbon

Empowerment Ribbon; Students display positivity, are focused, prepared, respectful, cooperate and include fellow dancers. Positive attitude (eliminating peer gossip), focus (concentrating on personal goals in dance), preparedness (arriving on time, dressed properly, and reviewed material for class), respectfulness (lowered voices and eliminating disruptive behavior while waiting for class), and cooperation & inclusivity (helping fellow dancers & making others feel welcome) will result in a blue ribbon.

JDC Leadership Program

JDC has created a more structured program for assistants that aims to build more confident, life ready students through dance. To accomplish this we provide training and insight into the many facets of owning, directing, operating and teaching in a business. Students will take on age appropriate tasks & have the opportunity to take on more personal responsibilities, dance room responsibilities and office responsibilities as they move through the program. The following students were part of our program year.
