

W=120" FOR A 10 FT X 100 FT ROLL OF PLASTIC

STEP 1.

Use the assigned measuring rod and mark of (w)

CUTTING MULTIPLE SKIRTS USING (L + T) = 30" and (w) FOR A GIVEN SIZE OF PATTERN

STEP 2.

Cut across the folded roll of plastic and then un-fold the plastic.

STEP 3.

Use the measuring rods assigned to check W = 96", length of Skirt 30", and the width of the pattern (w).

STEP 4.

FOLD THE PLASTIC AND PLACE THE PATTERN ON TOP OF THE PLASTIC TO CUT 4 SKIRTS

Note: The total length (L+T) of the Skirt is Constant for all tree sizes.
