

## How do we do it?

### The Smoke

Our offset custom smoker uses cherry wood to infuse the delicious smoky flavour into our food. Depending on the size of our meats we run at a temperature of just 110 Degrees Celsius, which over time allows any and all fat to render and reabsorb flavour back into the meat. How long does it usually take? It'll be ready, when it's ready!!

## Thank You

### Reviews

"The taste of everything was phenomenal. The brisket was tasty and juicy, and the sausage was awesome. We had extras too, and they were great as well."

- Richard Hughes

"Hands down best BBQ I've ever had, and I LOVE BBQ. Not to mention these have got to be THE FRIENDLIEST BBQ dudes anywhere, ever."

- Kaci J

SMOKED FOOD LOW 'N' SLOW

"Highly recommended and perfect for any occasion"

## Our Story

What started as a hobby during the COVID 19 pandemic, the passion for smoked food has taken us so far!

First and foremost our 'trainlike' smoker was brought to life whilst we had tight regulations and outdoor only trading in the hospitality industry.

The flavours were so well received and the feedback was tremendous, which gave us a will to progress further.

We are now a small family business which caters for every and any event you wish. Some of our meats are sourced from our family farm in Yorkshire and our cherry wood is sourced within the Cheshire area.

We are extremely versatile and can tailor our menus to suit your requirements.
