Event Highlight

Our Annual Art Gala is such a fun event to celebrate Parkside's birthday each year!

The kiddos have fun creating art and parents have the opportunity to build relationships with each other while also participating in a friendly competition. Bids were made, laughs were had and art was sold! The last couple years we have also been able to host the event outside, and it's been a beautiful new change!

We're catching up!
Thank you for your patience!

Our Art Gala was rescheduled after a load of snow days caused closures in Fayetteville. We're glad this worked out to be a win-win situation, so we could host this event outside in the spring-like weather.

Check out what we've been doing the last couple of months!

Check out what we've been doing the last couple of months!

Each class took part in starting sprouts for our spring garden: scooping dirt, planting seeds & watering to watch them grow!

What's the scoop?

Babies welcomed a new teacher, Miss SeAnna, and a new baby friend! All of our babies are now on the move, so this is the point in the year where the room changes and adapts to the needs of older babies! They've also been able to make it outside more. They are looking forward to more drop offs and pick ups outside on the porch!

Toddlers have been really into dramatic play and using their loose parts to add to their scenes. When we provide loose parts for children to use in their open ended play, there are endless possibilities! It's so fun to see the different ways they have use these same materials from day to day!

← // →

Junior friends have been getting creative with all the loose parts they find in nature. Just look at this beautifully formed track they made for their dump trucks: small trucks in the middle and big trucks on the outside. The planning and teamwork really shows the development in their cognitive thinking!

Miss Kaylee joined the Waddler room as a Co-Lead teacher, and two kiddos moved up from the baby room! The Waddler room got some room enhancements with different equipment and toys to accommodate different needs and developmental areas of learning as well as new arrangements in the inside classroom.

↔

Our Pre-K class is absolutely thriving in their collaborative play. Their play involves several levels of thinking and abilities. Here they have organized a band with songs! They have worked together to develop a system that involves each child with a job to get the outcome they want! These are skills they will master and use for years to come!
