GOAT INTERACTIONS

Fall is Upon Us

We are extremely excited for the cooler weather that comes with the season-- and even more excited for all of the pumpkin items we get to add to our menu! We are happy to announce that we will be having our art auction as our fundraiser for this month. Typically, we have an art auction in February as our anniversary celebration however, we want to be able to hold almost all events we host outdoors, so we are moving it to a more comfortable time of year. We will have our Fall Festival at the same time so parents will be able to enjoy some food, hot apple cider, and games with their child while also having the opportunity to snag some of their awesome artwork.

Important Reminders:

- Please, other than one stuffed animal for nap time, do not let your child bring toys to school. It causes several problems within the classroom, and we are limited to what toys we are allowed to have by licensing. Thank you for understanding!
- Remember to check in and check your child out through Brightwheel. When parents do this at drop off and pick up, it keeps our records accurate and takes a load off of our teachers. If you do not have your phone to scan the QR code, you are welcome to step inside and use the Ipad to check in or out.
- Colder weather is approaching. Please make sure your child has weather appropriate gear since we play outside everyday!

Dates to Remember

October 5th - PTO Zoom Meeting 8 p.m.
October 25th-29th - Parkside Spirit Week
October 29th - Fall Festival & Art Auction
4:30-6:30

Happy Birthday!

October 3rd - Thea (1)
October 9th - Caroline (4)
October 14th - Lillian (5)

WHAT ARE WE LEARNING?

BABIES

At Parkside we believe in giving our babies plenty of time to move around freely and explore their environment! Our babies babble to each other when rolling around together on a play mat. They are learning social skills and expressing emotions by smiling, laughing and even crying at each other!

WADDLERS

The Waddlers love talking about their bodies and what everything is used for. They have begun showing us they hear something, in the photo, he heard an airplane! Do you hear an airplane? :D

TODDLERS

All children are eager to help and eager to learn! We are happy to allow our students to participate in their care routine. They learn responsibility and why we do what we do to keep everyone healthy and safe!

JUNIORS

Juniors had some guest speakers come out to talk to them about gardening! This teaches the children about having a community and how all of us contribute and teach each other. Thanks to all of those who offered their time.

PRE-K

Our Pre-K class has constant access to our goats on their play yard. They also are in charge of their every day care. This teaches them responsibility and how to appropriately interact with animals which in turn helps with peer interactions!
