June 16-20 - Summer Spirit Week!

June 20 - Summer Party 4:30-6pm

Happy Birthday!

We love birthdays!

For privacy, birthdays are hidden when posted online

Event Highlight

Pre-K Graduation was on May 31, and it was held at The Campsite this year (the space that is used for summer camp). It was a beautiful morning filled with beautiful little smiles and meaningful interactions.

Families came, tears dropped, children played and snacks were eaten. We love being able to have a small, but special ceremony celebrating all our kiddos who are going off to Kindergarten. Almost half of our kiddos have been in our program since the baby room! But no matter how much time kiddos have spent in our program, our time with them has been priceless nonetheless and worth celebrating!

We're catching up! Thank you for your patience!

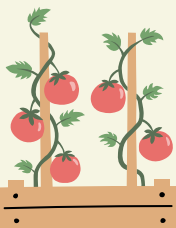

To say May was a busy month is an understatement! We started off the month celebrating our teachers for Teacher Appreciation Week! We are so thankful for the amazing humans who help make Parkside what it is. ♥ While we appreciate them all year long, who doesn't enjoy being showered with food and love?! The celebrating continued all month long with an abundance of birthdays and work-aversaries!

Our classrooms have been soaking up the sunshine. Take a look at what we've been doing!

Babies

The baby room is full of movement! The teachers have been moving and changing the room to enhance the kiddos play by providing more opportunities for gross motor development. The ramp outside and the texture of the ground underneath bare feet are such a great and natural way for developing babies to practice their skills!

Juniors

Our Junior friends have been hard at work on the play yard. With their interests all taking off in different directions we have seen a variety of activities all around! There has been a lot of mixing of mud to share "food" with their friends and even creating a trail side stands to share with friends as they pass by on their bikes. There has also been an interest in cutting magazines to make collage art and using tools with play dough which is great for those fine motor skills as a prewriting exercise!

Waddlers

Waddlers have been mastering their park trips recently! They have been able to let everyone walk rather than having to use the giant stroller which is such a big improvement for their age group! Some of the things the teachers have been working on in class are self help skills and guiding children's interactions as they move into more interactive play with their peers.

What's the scoop?

Toddlers

The social emotional learning in Toddlers is in its prime! The friendships forming and taking off are so much fun to watch. From taking care of babies to mud pies to organized restaurants, our Toddler friends are really complicating their play in a way that highlights the importance of what they are learning from each other through dramatic play!

Pre-K

Our Pre-K friends have been cherishing all of their conversations and time together as their new Kindergarten adventure approaches closer and closer. Five of our friends are leaving our program early to spend the summer with their families which made graduation all the more memorable. A lot of our friends have been participating in multi-level organized play, and it is so interesting to see their interactions!
