WORK EXPERIENCE

LAYOUT ARTIST

LAFD, Joe Aguillera (JAN 2025 - PRESENT)

Remote

Worked with director Joe Aguillera on the recruitment advertisements for the LAFD, **PUT YOUR NAME ON IT**, on producing background artwork from rough layouts to final paint.

- Alongside my share of work, I collaborated with the secondary layout artist to ensure the work was consistent in line quality, color, points of continuity, and general style.

- A small but significant contribution on my end was that I produced the style and brush preset for the final line work my co-worker and I would work with.

COMPOSITOR

LsMark (MAY 2024 - JULY 2024)

Remote

• Collaborated with Mark McConville on After Effects compositing for his cartoon pilot, **Catching Up**. My primary goal was to capture the nostalgic feel of early 2000s Cartoon Network through character lighting and color design, ensuring they harmonized seamlessly with the environments.

• To both Mark's and my own surprise, I delivered high-quality, style-consistent work with a fast turnaround. By incorporating thoughtful creative touches, I was able to enhance each of my shots, bringing additional depth and vibrancy to the project.

AWARDS
